CODE ON DISCLOSURE FOR MPF INVESTMENT FUNDS

Explanatory Notes:

- (a) Section 6H(1) of the Mandatory Provident Fund Schemes Ordinance (Cap 485) (the Ordinance) provides that the Authority may issue guidelines for the guidance of approved trustees, service providers, participating employers and their employees, self-employed persons, regulated persons and other persons concerned with the Ordinance. Section 6H(2)(a) provides that a guideline may consist of a code, standard, rule, specification or provision relating to provident fund schemes or a class of such schemes. Pursuant to section 56(3)(fa) of the Mandatory Provident Fund Schemes (General) Regulation (the Regulation), the Authority may specify information to be included in annual benefit statements.
- (b) This Code has the same effect as a guideline except Chapter F2. Chapter F2 specifies the information to be contained in annual benefit statements pursuant to section 56(3)(fa) of the Regulation.
- (c) The issue of an advertisement, document or invitation to the public in Hong Kong to participate/invest in a master trust scheme/industry scheme/pooled investment fund must seek prior approval from the Securities and Futures Commission (SFC) under the Securities and Futures Ordinance (Cap 571). Please refer to the SFC Code on MPF Products in this respect.
- (d) Section 42 of the Ordinance provides that...:
 - (1) Section 41 does not prevent the Authority from doing any of the following with respect to information obtained by it under this Ordinance-
 - (g) disclose the information relating to provident fund schemes or constituent funds or approved pooled investment funds, but only if the Authority considers that it could-
 - (i) promote understanding by the public of the retirement scheme industry in Hong Kong and of the benefits, risks and liabilities associated with investing in provident fund schemes or occupational retirement schemes;
 - (ii) promote understanding by the public of the importance of making informed decisions relating to provident fund schemes or occupational retirement schemes, including, in particular, the importance of making informed decisions when choosing registered schemes or investing contributions or accrued benefits; or
 - (iii) secure an appropriate degree of protection for the public by ensuring that they have sufficient information to help them make informed decisions relating to provident fund schemes or occupational retirement schemes, including, in particular, sufficient information to help them make informed decisions when choosing registered schemes or investing contributions or accrued benefits.
- (5A) The information that may be disclosed under subsection (1)(g) includes (but is not limited to) information relating to-
 - (a) the investment portfolios and investment policies of provident fund schemes, constituent funds or approved pooled investment funds;
 - (b) the investment performances of provident fund schemes, constituent funds or approved pooled investment funds;
 - (c) the risks associated with investing in provident fund schemes, constituent funds or approved pooled investment funds;
 - (d) the fees and charges payable under provident fund schemes, constituent funds or approved pooled investment funds; and

(e) the types of services available to members of provident fund schemes.

(e) Section 31 of the Regulation provides that ...:

(2) The following information must be disclosed to a person who is considering making an application to become a scheme member or participating employer –

(a) the requirements and information required for application for membership of or participation in the scheme;

(b) the governing rules of the scheme;

(c) scheme information, including all of the fees and charges payable under the scheme.

(3) The information referred to in subsection (2)(c) must include (but is not limited to) the actual amounts of the annual fees payable in respect of –

(a) scheme members of the different income levels prescribed by the guidelines; and

(b) participating employers of the different scales of operation prescribed by the guidelines.

(f) Section 54 of the Regulation provides that...:

(1) The approved trustee of a registered scheme must ensure that, within 60 days after a person becomes a scheme member, the person is provided with a document containing information relating to the scheme.

(2) The document must-

(a) include a general description of the scheme, including its terms and the fees and charges payable under the scheme; and

(b) if the scheme comprises 2 or more constituent funds, specify particulars of those funds; and

(c) specify the person (if any) designated by the trustee as the scheme contact person, either by name or by reference to the person's position or job description, and the means by which the person can be contacted.

(g) Section 56 of the Regulation provides that...:

(1) The approved trustee of the scheme must ensure that-

(a) within 3 months after each financial period of a registered scheme, each of the scheme members is provided with a benefit statement setting out the member's position with respect to the scheme as at the end of that period, whether or not the auditing of the financial statements of the scheme for that period has been completed then; and

(b) if there are subsequent audit adjustments made to the benefit statements affecting the members' balances, members are notified in writing within 30 days after the trustee becomes aware of those audit adjustments.

(2) If a financial period of a registered scheme is extended to more than 12 months, the approved trustee of the scheme must ensure that each member of that scheme is provided with-

(a) a benefit statement for the first 12 months of the financial period; and

(b) a further benefit statement prepared and issued as at the end of the extended period.

(3) A scheme member's benefit statement must-

(a) specify the name of the member, the name of the scheme and the name of the approved trustee of the scheme; and

- (b) specify the total contributions that have been paid to the scheme in respect of the member during the financial period and specify, in so far as it is within the knowledge of the trustee, any contribution periods for which contributions that were required to be paid in respect of the member have not been paid; and
- (c) specify the value of accrued benefits of the member as at the beginning of the financial period and also the value of accrued benefits of the member as at the end of that period; and
- (d) if the member is a self-employed person, specify the total contributions paid to the trustee by the scheme member during the financial period; and
- (e) if the member is not a self-employed person, specify the total contributions paid to the trustee by the member's employer during the financial period; and
- (f) give particulars of amounts transferred to or from the scheme during the financial period; and
- (fa) contain such information as may be specified by the Authority; and
- (g) subject to subsection (4), be printed in both the Chinese language and the English language; and
- (h) be prepared on an accrual basis, except that contributions and items relating to contributions not yet received by the approved trustee of the scheme may be included on a cash basis.

(3A) For the purposes of subsection (3)(b), (c) and (f), the benefit statement of a scheme member with a TVC account must provide separate information with respect to-

- (a) the tax deductible voluntary contributions paid by the member into the account; and
- (b) all accrued benefits-
 - (i) derived from those contributions; and
 - (ii) transferred to the account in accordance with Part 12 of the Regulation.

(4) The name of the member may be printed on the benefit statement in either the Chinese language or the English language, unless the member, by written notice, requires the trustee to print that name in both of those languages.

(5) If voluntary contributions to a registered scheme are paid by or in respect of a scheme member, subsection (3) is not complied with unless, in relation to the matters referred to in paragraphs (b) to (fa) of that subsection, the statement provides separate information with respect to-

- (a) the mandatory contributions paid by or in respect of the member, and the accrued benefits derived from those mandatory contributions; and
- (b) the voluntary contributions paid by or in respect of the member, and the accrued benefits derived from those voluntary contributions.

(7) The approved trustee of a registered scheme is not required to comply with this section in relation to a person who has ceased to be a scheme member during the period of 3 months after the end of a financial period of the scheme and whose accrued benefits have been transferred to another registered scheme in accordance with Part 12 of this Regulation or have been paid in accordance with section 15 of the Ordinance.

(h) Section 143A of the Regulation provides as follows:

- (1) This section applies if—

- (a) an approved trustee of a registered scheme—
 - (i) is required under the Ordinance (including its subsidiary legislation) to give (however described) a member of the scheme any document or information; or
 - (ii) is required under the Ordinance (including its subsidiary legislation) to ensure that the member is given (however described) any document or information;
 - (b) the member concerned is an employee of a participating employer; and
 - (c) the trustee, with the consent of the participating employer, gives (however described) the employer, or arranges to give (however described) to the employer, the document or information.
- (2) The participating employer must ensure that the document or information is given to the employee within 7 working days after the employer has received the document or information from the trustee.

PART A – GENERAL

Chapter A1: Interpretation

A1.1 Unless otherwise defined below, words and expressions used in this Code are as defined in the Ordinance and the Regulation.

“APIF” means an approved pooled investment fund that has been approved by the Authority pursuant to section 6(1) of the Regulation;

“the Authority” means the Mandatory Provident Fund Schemes Authority;

“constitutive documents” means the principal documents governing the formation and operation of a registered scheme or a pooled investment fund, including the policy document in the case of a pooled investment fund which is an insurance policy and the trust deed in the case of a registered scheme comprising one or more constituent funds or a pooled investment fund which is a unit trust;

“default investment strategy” (DIS) in relation to a registered scheme, means the default investment strategy provided in the governing rules of the scheme under section 34DB(1)(a) of the Ordinance;

“FER” means fund expense ratio;

“fund” means constituent fund and/or approved pooled investment fund as appropriate to the context;

“key scheme information document” in relation to a registered scheme, means a document which forms part of the offering document of the scheme and discloses the key information about the scheme in accordance with the disclosure requirements under Part H of this Code;

“MPF scheme brochure” in relation to a registered scheme, means a document which forms part of the offering document of the scheme and discloses detailed information about the scheme in accordance with the disclosure requirements under Part G of this Code and the SFC Code on MPF Products;

“NAV” means net asset value (i.e. gross asset value net of accounts payable and accrued fees and expenses);

“offering document” has the meaning given by section 2 of the Regulation, and consists of the key scheme information document and the MPF scheme brochure;

“operator” when used in connection with an APIF that is a unit trust means the trustee of the APIF and when used in connection with an APIF that is an insurance policy means the authorized insurer that issued the policy;

“the Ordinance” means the Mandatory Provident Fund Schemes Ordinance;

“recognized industry performance presentation standards” means any standards or guides issued by an industry body in Hong Kong recognized by the Authority for the purpose of this Code;

“recognized reference portfolio” means a reference portfolio recognized by the Authority for the purpose of D2.3 of this Code;

“the Regulation” means the Mandatory Provident Fund Schemes (General) Regulation;

“SFC” means the Securities and Futures Commission of Hong Kong;

“the SFC Advertising Guidelines” means the SFC Advertising Guidelines Applicable to Collective Investment Schemes Authorized under the Product Codes;

“the SFC Code” means the SFC Code on MPF Products.

Chapter A2: Purpose and Administration

Purpose

A2.1 The purpose of this Code is to give guidance to approved trustees and other service providers about the disclosure of information about registered schemes and constituent funds and in particular information about fees, charges and performance. This Code also gives guidance to operators of APIFs about the disclosure of information (particularly expense information) to operators of funds that invest in those APIFs. This Code also specifies the additional information to be contained in annual benefit statements pursuant to section 56(3)(fa) of the Regulation.

Status

A2.2 This Code (except Chapter F2) is issued pursuant to section 6H of the Ordinance and has the same status as a guideline issued under that section. Section 6H(6) of the Ordinance sets out the consequence of the contravention of a guideline. Compliance with a guideline issued by the Authority is also a standard condition of approval of an approved trustee, registration of a scheme and approval of an APIF. Chapter F2 specifies the information to be contained in annual benefit statements pursuant to section 56(3)(fa) of the Regulation.

Interaction with other requirements

A2.3 This Code sets out guidance about content for a range of documents such as offering documents, fund fact sheets and annual benefit statements. It is recognized that other sources impose requirements in relation to some documents; for example, the SFC Code and the SFC Advertising Guidelines contain detailed requirements in relation to offering documents and advertising materials. In relation to offering documents and advertising materials, this Code is intended only to supplement the requirements of the SFC Code and the SFC Advertising Guidelines, and is not intended to replace or replicate any of the requirements contained within the SFC Code or the SFC Advertising Guidelines.

Administration by the Authority and the SFC

A2.4 Chapter A2 of the Code on MPF Investment Funds sets out the respective regulatory functions and the delineation of roles and functions of the Authority and the SFC concerning MPF matters. The respective roles and the functions set out in the Code on MPF Investment Funds continue to apply as modified to the extent set out in this Code. To the extent that the SFC gives any authorization in relation to a registered scheme or pooled investment fund, such authorization or approval relates to the requirements of the SFC Code and does not signify any assessment by the SFC of compliance with the contents of this Code unless otherwise indicated.

A2.5 Section 63A of the Regulation requires that any amendment to the offering document of a registered scheme shall not be made available until the Authority has given written notice to the approved trustee that the Authority has approved the amendment. The inclusion of, or amendment to, a Fee Table in an offering document (as set out in Part C of this Code) would be an amendment that would require the Authority's approval under section 63A of the Regulation. In addition, any amendment to an offering document will also require the approval of the SFC pursuant to the SFC Code.

A2.6 The Authority maintains supervisory responsibility for the contents set out in this Code. This includes, for example, approving changes to offering documents as described in the previous paragraph and supervising compliance with other parts of the Code by way of regular or random review. It is not necessary for an approved trustee to obtain the prior approval of the Authority for On-going Cost Illustrations, fund fact sheets or any advertising material unless these documents constitute offering documents as defined in the Regulation. Approved trustees should however provide copies of these documents to the Authority, in the format as notified by the Authority, within five working days after they are issued. The Authority may periodically review these documents and provide comments to approved trustees or take any other action as considered necessary.

A2.7 The Authority may disclose the information in relation to registered schemes or constituent funds or APIFs in accordance with sections 42(1)(g) and 42(5A) of the Ordinance.

On-going review

A2.8 The Authority will review the operation of this Code and compliance with it by approved trustees and other service providers. This Code may be amended or added to by the Authority in the light of operational experience. The Authority will also give consideration to the need, in due course, to impose relevant obligations by way of legislative amendment to the Ordinance or Regulation.

PART B – DISCLOSURE PRINCIPLES

Chapter B1: Background

B1.1 In the course of scheme operation, information is provided to a range of parties for a range of different purposes. In addition to the obvious needs of scheme members, other stakeholders such as employers, industry peers, academics, regulators, the government and the media have an interest in information about registered schemes. The focus of the guidance contained within this Code is on the provision of information to members of registered schemes, however the needs of other stakeholders, particularly employers, have also been considered in developing this Code. Better information about fees and charges should be of assistance to employers in choosing a scheme as they should be encouraged to consider fees and charges as one of the key relevant factors in making that decision.

Why members need information

B1.2 Scheme members and prospective scheme members need information for a variety of purposes including the following four purposes:

- firstly, to understand the nature, characteristics and rights accruing under the scheme of which they have become, or are considering becoming a member;
- secondly, to enable them to make informed investment decisions about the range of choices available to them as members of a registered scheme;
- thirdly, to verify transactional information such as contributions and redemptions; and
- fourthly, to assist them in longer term financial planning for retirement and lifestyle needs.

Investment decisions

B1.3 Members of registered schemes have a broad range of investment decisions that they should be encouraged to actively consider. In order to facilitate decision-making, members need to be provided with information on a continuous basis.

B1.4 The range of possible decisions varies across individual schemes and members but generally, includes decisions such as the following:

- decisions about which constituent funds to invest in initially and in what proportions;
- decisions about whether to switch between constituent funds for accrued benefits and/or future contributions;
- decisions about whether to make voluntary contributions or tax deductible voluntary

contributions and if so into which funds, in what proportions and in what amounts;

- for those members who are self-employed, decisions about which scheme to join, which constituent funds to invest in and in what proportions;
- for those members who have changed employers, whether to transfer benefits to another scheme and if so into which constituent funds of that scheme; and
- decisions about whether to transfer benefits derived from employee mandatory contributions to another scheme.

Verifying contribution and other transactional information

B1.5 Scheme members also need information in order to verify that their contributions and other transactions have been correctly processed. Member verification of contributions and transactions is only one of the mechanisms built in to the MPF System that is designed to ensure that contributions and transactions are correctly processed and recorded. It is appropriate, however, that members have at least a minimum amount of information that can satisfy them that there are no irregularities in processing of contributions and other transactions.

Financial planning for retirement

B1.6 Although closely connected to investment decision making under B1.3 and B1.4 above, the information required for financial planning purposes is slightly different from that required for the range of investment decisions set out above. Generally, members would need the same types of information for financial planning purposes as they would for MPF specific investment decisions. Their needs, however, in this respect are broader because they need to consider issues outside of the MPF System. Whilst historical information, such as past performance information, might have limited relevance in assisting investment decisions across MPF funds, it may be relevant for members in understanding how their retirement savings are accumulating so that they can properly make judgements and decisions about their longer term saving and retirement needs.

Chapter B2: Good Disclosure Principles

B2.1 The focus of Parts C to G of this Code is to provide guidance about minimum disclosure content for a number of key disclosure documents including, for example, offering documents, annual benefit statements and fund fact sheets. This Code focuses on those documents because they are the principal mechanisms for delivering information to members and other interested parties.

B2.2 Five good disclosure principles have been applied in the development of the contents of this Code. These same five principles should also guide approved trustees and their delegates in the

interpretation of this Code and in preparing any information for disclosure to scheme members, whether in the documents specified in this Code or in more generalized disclosure material such as promotional material. It is recognized, however, that not all of the principles will have application in relation to all types of information provided to scheme members.

- B2.3 It is recognized that some disclosure material, in practice, serves the dual purpose of providing information to scheme members to help them make decisions and also serves the commercial purpose of promoting products. In administering the scheme, approved trustees are ultimately subject to a duty to act in the interest of scheme members and not in the trustees' own interest¹.
- B2.4 The good disclosure principles set out in this Code are intended only as high level conduct guidance for trustees. They are not intended to have any operation or application where their content is contrary to, or inconsistent with, any direct obligation (for example arising under the Ordinance, or the Securities and Futures Ordinance or any relevant code issued by the SFC) or any specific guidance set out in this Code or other guidance issued by the Authority.

Principle 1 – Information should facilitate decision making

- B2.5 Information should be provided to scheme members not merely on the basis that there is a legal requirement to do so but principally in order to inform members and to facilitate informed decision making by them. As highlighted above in B1.4, members of registered schemes have a wide range of investment decisions that they need to make on a periodic basis. Approved trustees and their delegates should keep in mind the range of these decisions and seek to ensure that information is provided in a way and means which facilitates that decision making by scheme members. Members should have access to relevant information on a continuous basis that will assist them to make informed decisions on the whole range of decisions that are available to them. By way of example, one key decision which scheme members have to make is to choose from constituent funds within a scheme. Members make this decision not just upon joining a scheme but, at least implicitly, on a continuous basis. They therefore need access to information that will facilitate that decision making on a continuous basis.
- B2.6 The particular information that will facilitate a decision depends on the nature of the specific decision that is being made. In making MPF investment decisions, members will need a range of information about issues such as the attributes and features of relevant funds, the attributes of relevant parties, the range and quality of services being offered, the risk profile of relevant funds and the fees and charges that relate to investments in various funds (including the comparative costs of those investments).
- B2.7 Information about fees and charges is important in comparative decision making for members

¹ Section 43(d) of the Regulation.

because fees and charges represent the comparative cost of products and information about fees and charges has higher forward-looking reliability than, for example, information about past performance. Members should therefore be encouraged to consider the effect of fees and charges as one of the relevant factors when making comparative investment decision across funds (either within the same scheme or across different schemes).

Principle 2 – Information should be timely

B2.8 Regardless of the legal obligations which apply as to when or how often information should be updated, members need up-to-date information to facilitate on-going decision making. Members' needs in this respect might vary depending on the nature of products, the volatility of relevant markets and the importance of other relevant key events.

Principle 3 – Disclosure should promote comparability

B2.9 Many of the key decisions that scheme members are required to make necessarily involve the comparison of constituent funds; either within schemes or comparison of funds across schemes or in some circumstances even outside the MPF System. It is therefore important that information be provided in a manner that facilitates comparison across funds and, to the extent possible, across schemes and providers. Information will be more comparable if it is presented in a consistent manner across funds and across schemes and if the terminology and language used are presented in a consistent, unambiguous and logical way.

Principle 4 – Disclosure should be consistent

B2.10 In addition to the comments about consistency in the previous paragraph, it is important that information is calculated and presented in a consistent way to minimize overly optimistic use, or “cherry picking” of information. Once a methodology is applied, it should be used consistently unless there is a legitimate reason to change approach. This is particularly relevant in relation to the presentation of performance information (for example, providers should not alter performance reporting timeframes to suit circumstances and they should consistently report against the same benchmarks). This principle is also relevant in those circumstances where approved trustees or their delegates are given a discretion in the way that information is presented or calculated (for example in the number of pricing points adopted for the purpose of calculating FER).

B2.11 In many respects, consistency of disclosure can be obtained without the need for prescriptive regulation if those responsible for disclosure put in place standards that will facilitate consistency. The Authority has encouraged this through a process of recognizing certain industry standards for particular purposes². The Authority encourages the development and use of industry standards to

² See for instance Part D relating to fund fact sheets and in particular D2.3.

improve consistency of disclosure outside of that framework.

Principle 5 – Disclosure should be clear and concise

- B2.12 Participation in the MPF System applies to different sectors of the community, not just those who are used to making investment decisions. It is therefore essential that information be disclosed in a way that is comprehensible to the general population and not just to those who may be used to reading investment literature.
- B2.13 The Authority would encourage approved trustees and other service providers to consumer test disclosure documentation to ensure that the information is presented in a way that is comprehensible and meaningful for the general population.
- B2.14 Disclosure should, in general, be as brief as possible to set out the required information and should focus on those items that have a material impact. Technical and industry jargon should be avoided or where it is unavoidable to use technical terms, they should be explained in language that is as simple as possible. The layout of information can assist its clarity and approved trustees and service providers should use tools such as charts, graphs or other illustrations where they can assist interpretation.

PART C - DECISION POINT DISCLOSURE OF FEES AND CHARGES OF A REGISTERED SCHEME

Chapter C1: Background

- C1.1 This part of the Code deals with the information concerning fees and charges that approved trustees should make available to participating employers and scheme members as well as prospective participating employers and prospective scheme members in order to facilitate effective decision making by those persons. Specifically, this part of the Code provides guidance that is intended to supplement Chapter 5 of the SFC Code, particularly in relation to the disclosure of fees and charges of registered schemes. This part of the Code also contains guidelines that prescribe the income levels of scheme members and scales of operation of participating employers for the purposes of section 31(3) of the Regulation. The guidance provided in this part is also intended to assist approved trustees in understanding their obligations under sections 31(2) and 54 of the Regulation.
- C1.2 Chapters 5 and 7 of the SFC Code set out the general requirements for offering documents.
- C1.3 Section 31(2) of the Regulation sets out the information that an approved trustee must disclose to a person who is considering making an application to become a scheme member or participating employer of a registered scheme. In particular, section 31(2)(c) of the Regulation provides that scheme information, including all of the fees and charges payable under the registered scheme must be disclosed. Section 31(3) of the Regulation further requires that the scheme information must include the actual amounts of the annual fees payable in respect of scheme members of the different income levels and participating employers of the different scales of operation prescribed by the guidelines. Pursuant to section 22 of the Ordinance, the approved trustee of a registered scheme must, as far as reasonably practicable, ensure that sections 31(2) and 31(3) of the Regulation are complied with.
- C1.4 Section 54 of the Regulation provides that an approved trustee must ensure that, within 60 days of a person becoming a scheme member, the person is provided with a document containing general information about the scheme (including the fees and charges payable under the scheme), particulars of constituent funds and contact details. Where notices or documents are given by electronic means, Guidelines IV.26 on Giving of Notices or Documents by Electronic Means which set out the requirements in section 206 of the Regulation should be complied with for the giving of notices or documents under C1.4 and other Parts of this Code where applicable.

What information should be disclosed?

- C1.5 Participating employers and scheme members, as well as prospective participating employers and

prospective scheme members should be provided with adequate information to enable them to make informed investment decisions. For scheme members and prospective scheme members some of those decisions are set out above in B1.4.

C1.6 This Code does not attempt to provide detailed guidance on the entire range of information that should be disclosed. General disclosure content is a matter for the approved trustee to determine considering the Regulation, the requirements under the SFC Code and the good disclosure principles set out above. As information about fees and charges should be one of the key factors considered in the range of relevant decisions, this Code focuses on the provision of clear and comprehensible information regarding fees and charges.

Distribution of key scheme information documents

C1.7 Taken together, the SFC Code and sections 31(2) and 54 of the Regulation provide a comprehensive framework for the provision of information to relevant parties. Various parts of those provisions have overlapping operation and require the same information to be provided at various points in time. Approved trustees can satisfy these overlapping obligations through the adoption of a layered disclosure approach³ under which approved trustees should ensure that, in relation to scheme members and prospective scheme members:

- (a) a copy of the current key scheme information document of a registered scheme is provided to all prospective scheme members when they are considering making an application to become scheme members; and
- (b) a copy of the current key scheme information document is provided, at any time, to current scheme members upon request.

C1.8 Approved trustees should provide the key scheme information document directly to prospective scheme members or ensure that they are delivered through a delegate or arrange distribution through participating employers where the employers agree to distribute such document to their employees. If arranging distribution through participating employers, approved trustees should give participating employers a sufficient number of copies of the key scheme information document to distribute to their employees. If an approved trustee becomes aware, for example, that an employer is refusing to distribute the key scheme information document, it should take other steps to distribute the key scheme information document to relevant employees such as posting the key scheme information document to new scheme members or providing copies to existing members upon request. It would not be adequate distribution, for instance, if the

³ The layered disclosure approach requires information to be presented in different layers, allowing readers to choose the level of detail of information desired. Layer 1 document is a summary of key information such as in the form of a key scheme information document of a registered scheme and discloses ways to access layer 2 documents (e.g. web link, QR code). Layer 2 documents offer more details of a registered scheme to which the layer 1 document refers.

participating employer or approved trustee merely holds copies of the key scheme information document.

Fee information in documents other than offering documents

C1.9 Where documents other than offering documents make references to fees and charges, that information should be consistent with the information disclosed in the relevant offering documents and should state that detailed information about applicable fees and charges is contained in the offering document which is available on request. In order to minimize the possibility of confusion, publications (including, for example, handbooks, guides, brochures or booklets that are provided to scheme members and prospective scheme members) that provide detailed information about the level of fees and charges (as opposed to merely making references to fees and charges) should set out the fees and charges in the format of the Fee Table as it appears in the relevant offering document of the registered scheme.

Chapter C2: Specific Disclosures for Fee Information

C2.1 The following fee information in relation to a registered scheme should be provided through a layered disclosure approach as mentioned in C1.7 by approved trustees to applicants (both prospective participating employers and prospective scheme members) as part of the scheme information required under section 31(2)(c) of the Regulation:

- (a) a **Fee Table** which, to the extent practicable, follows the format and terminology used in *Appendix A*;
- (b) **On-going Cost Illustrations** which, to the extent practicable, follow the format and terminology used in *Appendix B*. C2.10 describes when this illustration is not required for a constituent fund; and
- (c) **an Illustrative Example** on annual fees charged by a constituent fund which is a capital preservation fund offered under a registered scheme that follows the format and terminology used in *Appendix C* (previously contained in Annex to Guidelines IV.1).

C2.2 The fee information referred to in C2.1 should also be made available to both participating employers and scheme members upon their request.

Fee Table

C2.3 The purposes of the Fee Table are:

- (a) to ensure that all fees and charges are brought together at one point;
- (b) to group the fees and charges together in a manner that is consistent across funds so that

comparison is facilitated;

- (c) to minimize the use of disparate terms to describe the same fees and charges; and
- (d) to facilitate an “at a glance” understanding of fees and charges.

C2.4 Chapter 5.20 of the SFC Code requires that all fees and charges for registered schemes, constituent funds or pooled investment funds should be clearly identified in tabular form in the relevant offering documents. The guidance about the use of a Fee Table for all registered schemes supplements the requirement in the SFC Code. The Fee Table should be incorporated into the relevant offering documents and should be located in a prominent position in the offering document.

C2.5 To the extent that it is necessary that more detailed information about particular fees and charges be contained outside of the Fee Table, that information should appear within the same section (i.e. the section on fees and charges) in the offering document.

C2.6 In order to achieve the purposes set out in C2.3, the Fee Table must disclose:

- (a) all fees and charges;
- (b) what a particular fee is for;
- (c) the amount of each fee currently charged; and
- (d) by whom each fee is payable.

C2.7 The various fees in the Fee Table are listed according to their purpose and generally in the order that scheme members or participating employers encounter them. It comprises five sections:

- (A) Joining fee and annual fee;
- (B) Fees, expenses and charges payable arising from transactions in individual member’s accounts;
- (C) Fees, expenses and charges of constituent funds of the scheme;
- (D) Fees, expenses and charges of underlying funds; and
- (E) Other fees, expenses and charges for providing additional services.

A glossary for defining the various fees charged by a registered scheme is included at the end of the table. The format of the Fee Table and instructions to approved trustees for completing the Fee Table (which do not form part of the Fee Table) are also set out in *Appendix A*.

On-going Cost Illustrations

- C2.8 The purpose of the On-going Cost Illustrations is to assist users in understanding the effect of the textual information about fees, expenses and charges that is contained in the Fee Table. The On-going Cost Illustrations do this by illustrating, in dollars, the costs that may be incurred in investing in the constituent funds of a registered scheme across several defined time horizons, based on a set of consistent assumptions. The On-going Cost Illustrations also serve as a comparison of dollar costs among constituent funds with similar investment objectives offered by different registered schemes.
- C2.9 The On-going Cost Illustrations should be provided to prospective participating employers and prospective scheme members as part of the scheme information required under section 31(2) of the Regulation, either as a part of the scheme offering document or as an accompaniment to the scheme offering document. The illustrations should also be made available to participating employers and scheme members upon their reasonable request.
- C2.10 The guidance about providing On-going Cost Illustrations does not apply in relation to:
- (a) those constituent funds that are capital preservation funds; or
 - (b) those constituent funds that are guaranteed funds where the effect of the guarantee is that the amount which accrues to a member is in no circumstances affected by the net of fee performance of the fund; or
 - (c) constituent funds where the time between the inception date of the fund and the end of the relevant financial period of the scheme is one year or less.
- C2.11 *Appendix B* sets out the format and terminology for the On-going Cost Illustrations. That Appendix also sets out instructions on how the On-going Cost Illustrations should be prepared and calculated.
- C2.12 The On-going Cost Illustrations should be updated annually using the FER figures of the last financial period and illustrations should not be distributed or made available by other means if they are based on FER figures that relate to a financial period that concluded more than 18 months prior to that date of publication. In other words, approved trustees should update the illustrations within six months after the end of the financial period of a scheme.
- C2.13 Where the Fee Table clearly identifies that a different level of fee applies to a different group or class of scheme members, and where more than one On-going Cost Illustrations are to be provided (for example, by distributing different On-going Cost Illustrations to different classes of members reflecting the fees applicable to that class), the approved trustee should have arrangements in

place to ensure that only the relevant On-going Cost Illustrations are provided to the relevant participating employers and scheme members.

Illustrative example for capital preservation funds

- C2.14 No On-going Cost Illustration is required for capital preservation funds due to the unique fee deduction arrangements as stipulated under section 37 of the Regulation. A separate Illustrative Example is required for capital preservation funds. *Appendix C* sets out a template which contains the prescribed income levels of scheme members and scales of operation of participating employers for the purposes of section 31(3) of the Regulation.
- C2.15 The Illustrative Example for capital preservation funds (the CPF example) should be provided to prospective participating employers and prospective scheme members as part of the scheme information required under section 31(2) of the Regulation. It should also be made available to participating employers and scheme members upon their reasonable request. The CPF example and the On-going Cost Illustrations may be incorporated into one document.

Signposting illustrations

- C2.16 Offering documents that do not contain the On-going Cost Illustrations and the CPF example, and any advertising material that refer to fees and charges, should prominently disclose the availability of On-going Cost Illustrations and CPF example by the use of words similar in effect to the following:

“A document/s (*as relevant*) that illustrates the on-going costs on contributions to constituent funds in this scheme (*where relevant* except for the ABC Guaranteed Fund) is distributed with the offering document. Before making any investment decisions concerning MPF investments, you should ensure that you have the latest version of this document which can be obtained from [*insert details of how a copy of the document can be obtained*].”

Verification of the calculation of the illustrations

- C2.17 Approved trustees of registered schemes are responsible for verifying the various figures stated in the On-going Cost Illustrations (including any adjustment to FER for non-recurring items) and the CPF example. Verification procedures should be documented in the relevant compliance manuals. Calculations should be documented and retained for inspection by the Authority. The individuals within approved trustees who perform the verification work should have sufficient seniority to play an effective verification role.

PART D - FUND FACT SHEET

Chapter D1: Purpose and Background

- D1.1 The purpose of this part is to give guidance on the manner, and the extent to which, approved trustees should provide updated information about registered schemes and constituent funds to scheme members.
- D1.2 In addition to anything contained within this Code, approved trustees are required, pursuant to section 89 of the Regulation, to publish a consolidated report for a registered scheme (incorporating the financial statements of the scheme, the auditor's report, the scheme report and the investment report). Pursuant to section 90 of the Regulation, a scheme member may request the approved trustee of a scheme for a copy of the consolidated report.
- D1.3 The focus of this part is to ensure that, in addition to the statutory requirements set out above, members of registered schemes are provided with at least a basic level of information about a registered scheme and its constituent funds on a regular and timely basis.

Chapter D2: Minimum Content

- D2.1 To ensure that scheme members receive at least a basic level of information about the constituent funds within the scheme of which they are members, approved trustees should prepare and make available to all members of registered schemes, at least twice per financial period, a document (referred to in this Code as a "fund fact sheet") that meets the minimum content requirements set out below.
- D2.2 This part sets out the minimum content that should be contained within a fund fact sheet. The minimum content guidance is intended only to cover the essential pieces of information that members need. Approved trustees are encouraged to include any other information they consider necessary in order to meet the needs of members and the good disclosure principles set out in Part B above.
- D2.3 The following items are the minimum content that should be contained in a fund fact sheet of a registered scheme:
- (a) **Fund size** – the net asset value (NAV) of each of the constituent funds of the scheme as at the reporting date of the fund fact sheet.
 - (b) **Launch date** – for each constituent fund, the launch date of the fund.
 - (c) **Investment objectives of each constituent fund** – a brief description of the investment

objectives of the funds and, where relevant, any change in the statement of investment policy and objectives of any of the constituent funds since the last fund fact sheet.

- (d) **Portfolio allocation** – for each constituent fund, the allocation of assets as at the reporting date of the fund fact sheet. This can be presented in either tabular or graphical summary and the basis of allocation should be expressed in a manner that is consistent with the way that the intended portfolio allocation was expressed in the statement of investment policy and objectives contained in the offering document. The term “cash and others” should be used to denote cash at call, and operating items such as account payables and account receivables (where relevant).
- (e) **Top 10 portfolio holdings** – the largest 10 security holdings (i.e. not including cash and others) of each constituent fund as a percentage of fund NAV as at the reporting date of the fund fact sheet, or as at the last fund valuation date prior to the reporting date of the fund fact sheet. For fund-of-funds arrangements, where possible, the largest holdings should be disclosed down to the securities level. For example, if a constituent fund is a portfolio management fund (i.e. it invests in other funds), the largest holdings should be listed in accordance with the attributed exposures of the constituent fund to the underlying securities of the underlying funds. Operators of APIFs should ensure that relevant information (i.e. not less than the top 15 security holdings of the APIF) is made available to approved trustees of constituent funds no later than 15 days after the financial period as specified in D3.2 to enable them to calculate these holdings.
- (f) **Fund performance information** – for each constituent fund, the periodic rate of return for the fund over the periods of one, five, 10 years and since launch⁴.
- (g) **Performance measurement against any benchmark used** – for each constituent fund, a comparison of the fund’s performance against the benchmark, if any, identified in the relevant offering document.
- (h) **Performance measurement against recognized reference portfolio** – for the Core Accumulation Fund (CAF) and the Age 65 Plus Fund (A65F), a comparison of the performance of the CAF and the A65F respectively against the relevant recognized reference portfolio over the periods of one, five, 10 years and since launch as a constituent fund of the DIS and a brief description of the reason for any material difference between the return of the fund and the relevant recognized reference portfolio over any of those periods of one, five, 10 years and since launch as a constituent fund of the DIS. Material difference means a difference in annualized performance of a constituent fund of the DIS

⁴ Noting that “since launch” or “since inception” figures should only be used in the circumstances permitted under the SFC Advertising Guidelines.

that exceeds

- (i) 2.5 percentage points either side of the annualized performance of the recognized reference portfolio where the reporting date of the fund fact sheet falls on or before 30 June 2019; and
 - (ii) 2.0 percentage points either side of the annualized performance of the recognized reference portfolio where the reporting date of the fund fact sheet falls after 30 June 2019.
- (i) **Latest FER** – the latest available FER for each class of units of each constituent fund (calculated in accordance with Part E of this Code) as at the reporting date of the fund fact sheet. If the calculated FER might not accurately reflect the actual expense ratio of the fund (for example because the costs of underlying funds could not be ascertained), then a note to that effect should be included. It is not necessary to show a FER for a constituent fund where the period between the reporting date of the fund fact sheet and the inception date for the fund is less than two years.
 - (j) **Appropriate fund risk indicators** – for each constituent fund, a general indication about the level of risk of the fund in a manner that assists members in assessing the level of risks consistently across funds in the scheme.
 - (k) **Fund descriptor** – for each constituent fund, a description of the fund type in a manner that will facilitate comparison with other similar funds.
 - (l) **Risk class** – for each constituent fund, the risk class of the fund as at the reporting date and a brief description of the classification methodology as specified in G3.2.
 - (m) **Commentary** – in relation to each constituent fund, a discussion of fund performance, market review and market outlook.

In each case, the information should be prepared, calculated and presented in accordance with any applicable industry performance presentation standard that has been recognized by the Authority for the purposes of this Code.

Chapter D3: Frequency, Timing and Distribution

Frequency of fund fact sheets

- D3.1 At least two fund fact sheets complying with this part of the Code should be issued for each financial period of a registered scheme. Nothing in this Code is intended to discourage approved trustees or their delegates from providing more frequent reporting to scheme members that covers

any, or all, of the matters set out in this part. Consistent with the good disclosure principles set out in Part B, the Authority encourages approved trustees and/or their delegates to provide scheme members with regular, timely, comprehensible information that will best assist scheme members.

D3.2 For the purpose of D3.1, the reporting date for the fund fact sheets should be as at the end of the financial period of the relevant scheme and a date which is six months after the end of the financial period of the relevant scheme.

Distribution and timing

D3.3 The fund fact sheet that reports as at the end of the financial period of a scheme should be provided to members with the annual benefit statement under section 56(1) of the Regulation.

D3.4 The other fund fact sheet does not need to be posted to members, but should be distributed within two months of the reporting date, in a manner that is reasonably likely to bring it to the attention of all scheme members. The distribution means could, for example, be through a combination of direct mailings, distribution through employers, electronic mail, internet access, facsimile-on-demand and call centre support. The material sent with the annual benefit statement should prominently identify when and how the other fund fact sheet will be distributed.

Regulatory compliance

D3.5 In addition to the guidance set out in this Code, fund fact sheets may in some circumstances be considered as advertisements under the SFC Code and would need to meet the requirements of Chapter 8.6 of the SFC Code. Any authorization given by the SFC relates to the requirements of the SFC Code and does not signify any assessment by the SFC of compliance with the contents of this part of this Code.

D3.6 It is not necessary for an approved trustee to obtain the prior approval of the Authority for fund fact sheets, unless that document constitutes an offering document as defined in the Regulation. Approved trustees should, however, provide copies of fund fact sheets to the Authority, in the format as notified by the Authority, within five working days after they are issued. The Authority may periodically review these documents and provide any comments as considered necessary to approved trustees.

PART E - FUND EXPENSE RATIO (FER)

Chapter E1: Purpose and Background

- E1.1 The purposes of this part are to:
- (a) summarize where FER should be disclosed;
 - (b) specify how to calculate FER;
 - (c) provide guidance in the interpretation and application of the calculation formula; and
 - (d) specify the responsibilities of various parties in the preparation and calculation of FER.
- E1.2 The purpose of FER is to provide a measure of the total level of expenses incurred in investing through a fund, including the costs incurred at lower level collective investment schemes but not including those expenses paid directly by the scheme member. The FER has been developed considering the good disclosure principles in Part B and the need to strike a balance between precision and materiality.
- E1.3 FER calculation is applicable both in relation to constituent funds and also APIFs. Where the term “fund” is used in this part, the attached guidance is relevant both to constituent funds and APIFs.

Where FER is to be disclosed or used

- E1.4 Other parts of this Code and other Guidelines set out in detail where the FER of constituent funds, classes of constituent funds and APIFs are to be disclosed or used. The following list summarizes and identifies the relevant parts of this Code or other Guidelines where the detailed guidance is set out.

List of detailed FER disclosures:

- in the fund fact sheet relating to a constituent fund (see D2.3 of this Code);
- in the On-going Cost Illustrations for a constituent fund (see Appendix B of this Code);
- in the annual return of a registered scheme (see Guideline II.4: Form CF-AS); and
- in the annual return of an APIF (see Guideline II.5: Form APIF-AS/UT or APIF-AS/IP).

Preparation and calculation of FER for APIFs

- E1.5 The FER calculation for a constituent fund that invests in an APIF or a number of APIFs will need to include fees and charges incurred at the APIF level. For this purpose, it is necessary that operators of all APIFs calculate the annual FER of APIFs (and, if relevant, the classes of the APIF)

so that that information can be used in the calculation of FER of “higher level” constituent funds or APIFs. The operators of all APIFs should ensure that such a FER calculation is prepared in accordance with this Code and is made available to the approved trustee of any constituent fund or the operator of any APIF that holds an interest in the APIF.

- E1.6 In order to ensure that approved trustees of constituent funds have adequate information to calculate and present FER information in the timeframes required, they will need to be provided with FER information from APIF operators within a reasonably short time after the end of the financial period of the relevant APIFs. Operators of APIFs should endeavor to provide FER information to the approved trustees or if relevant, operators of other APIFs that invest in that APIF within four months of the end of the financial period of the APIF.

Chapter E2: Formula for Calculation of FER

- E2.1 Annual FER will need to be calculated for all constituent funds and APIFs.
- E2.2 The FER of a fund, or for a particular class of units of a fund, for a financial period should be calculated to two decimal places in the following manner:

FER (%) = direct expense (%) + underlying fund costs (%) +/- any adjustments permitted or required by the Authority in any individual case

Where, for the purposes of this formula only, the following terms have the meanings indicated:

Term	Meanings
direct expense (%)	The expenses of the fund or class divided by the average NAV of the fund or class expressed as a percentage.
underlying fund costs (%)	<p>An attributed percentage of fees and charges of each APIF or other collective investment scheme (CIS) held by a fund or class calculated by the formula:</p> <p>Underlying fund costs (%) = $\sum (H \times E)$</p> <p>Where:</p> <p>$\sum (H \times E)$ means the summation of the product (H x E) for each APIF and/or CIS held by the fund during the financial period.</p> <p>H = the average percentage of the fund invested in each APIF or other CIS which is obtained by dividing the sum of the holding of the APIF or other CIS (as a percentage of the fund) at each pricing point of the fund by the number of pricing points.</p> <p>E = the latest FER of the corresponding APIF or the latest expense ratio of the corresponding CIS as relevant.</p>
average NAV	The sum of the NAV of the fund or class at the pricing points divided by the number of pricing points.
adjusted unit expenses	An amount equal to the value of units deducted from member's accounts over the financial period, where those units were deducted for payment of any annual fees, or fees or charges that would be counted as expenses of the fund if deducted directly from the fund.

Term	Meanings
excluded expenses	<p>An amount that is included as an expense of the fund as set out in the income statement/profit and loss account of the fund for the relevant financial period that relates to:</p> <ul style="list-style-type: none"> (i) transaction costs; (ii) foreign exchange losses; (iii) withholding taxes; (iv) any adjustments made for different basis at ascertaining the NAV of the fund; or (v) distributions made by the fund.
expenses	<p>In relation to a fund means, the amount of expenses of the fund as set out in the income statement/profit and loss account of the fund for the relevant financial period minus excluded expenses plus any adjusted unit expenses.</p> <p>In relation to a class of units of a fund, means the proportion of expenses of that fund attributable to that class minus excluded expenses attributable to that class plus any adjusted unit expenses attributable to that class.</p>
latest FER of the APIF	<p>The FER of an APIF, calculated in accordance with this formula for the most recent financial period which ended no later than the last day of the financial period of the fund.</p>
latest expense ratio of the CIS	<p>The most recently available expense ratio of the CIS (whether calculated in accordance with this formula or not), or if such a figure is not available, a reasonable estimate of the expense ratio of the CIS.</p>

Term	Meanings
NAV	<p>In relation to a fund, means the NAV of the fund at a pricing point.</p> <p>In relation to a class of a fund, means the proportion of the NAV of the fund attributable to that class.</p>
pricing point	<p>Evenly distributed points in time throughout a financial period⁵ at which the NAV of a fund or class is calculated. For the purposes of this formula, a fund should have a minimum of one pricing point per calendar month. Trustees are however encouraged to use more frequent pricing points for the purpose of this calculation.</p>

Chapter E3: Explanations of the Terms Defined in E2.2

E3.1 The explanations in this Chapter are provided in order to help those responsible for the preparation of FER to understand the way that the formula operates and the intended meaning of the terms that are defined in E2.2. Nothing in this Chapter, however, has the effect of changing the meaning of terms from the definitions that they are given in E2.2.

“expenses”

E3.2 For simplicity, the term expenses is based on the amount that appears as expenses of the fund for the financial period in its income statement/profit and loss account. The figure appearing as expenses in the fund’s income statement/profit and loss account should be used for the purpose of FER calculation whether or not components of it were, for example, non-recurring or extraordinary.

“adjusted unit expenses”

E3.3 The term “adjusted unit expenses” has been incorporated into the calculation formula to ensure that any part of the operating costs or expenses of a fund that is charged against fund holders by way of deduction of units in the members’ accounts, is fairly represented in the FER calculation.

E3.4 The formula does not require any adjustment for deduction of units made for member-based fees and charges (such as contribution or withdrawal charges and any other unit administration costs or service charges) except in the case of an annual fee that is charged by way of deduction of units

⁵ For a fund that operated for less than a full financial period of a scheme, pricing points only apply to the period that the fund operated.

from members' accounts.

“latest FER of the APIF”

E3.5 The intended effect of this part of the formula is to identify which period FER of an APIF, should be used by a fund in calculating the underlying fund costs. If a fund and its underlying APIF have the same financial period-end, the trustee or operator of the fund should obtain and use the coterminous FER of the APIF for calculation of the FER. Otherwise, the fund should obtain and use the latest available FER of the APIF instead.

“latest expense ratio of the CIS”

E3.6 Investments in collective investment schemes other than APIFs, such as approved index-tracking collective investment schemes, and SFC-authorized unit trust funds that are approved by the Authority, should, as far as practicable, be treated in the same way as investments in APIFs for the purposes of the calculation.

E3.7 If a publicly available expense ratio for the collective investment scheme is available, then that ratio should be used for the purposes of the calculation. It is understood, for instance, that some index tracking collective investment schemes approved by the Authority do publish expense ratios that are calculated in a manner substantially similar to FER.

E3.8 If a published expense ratio is not available for a collective investment scheme, then the trustee or operator of a fund should make an estimate of the expense ratio of the scheme. The estimate should be made on a best effort basis and the basis of the estimation should be applied consistently. The estimate could for example be based on the latest available financial statements of the scheme or on information obtained directly from the scheme operator. If no information is reasonably obtainable upon which an estimation can be based, it is not necessary to make any estimation. The Authority will consider providing further guidance in this respect at a later time in light of operational experience.

“underlying fund costs (%)”

E3.9 For constituent funds or APIFs investing in APIFs or other collective investment schemes, fees and charges incurred at the “underlying” fund level should be included in the calculation of the FER of the fund. For this reason, “underlying fund costs” are added to the expenses incurred directly by the fund.

Worked examples

E3.10 In order to assist approved trustees and operators of APIFs, *Appendix D* provides worked examples of how the formula and defined terms should be applied in calculating FER of a fund or class.

Chapter E4: Review and Compliance

- E4.1 The Authority will periodically review the operation of the formula to ensure that accounting practices have not been applied or modified in a way that distorts the calculation of FER such that its objective and the consistency of its application are undermined.
- E4.2 Approved trustees and operators of APIFs are responsible for verifying the calculation of the FER. Verification procedures should be documented in the relevant compliance manuals. Calculations and source data should be documented and retained by approved trustees or operators of APIFs for inspection by the Authority. The individuals within approved trustees or operators of APIFs who perform the verification work should have sufficient seniority to play an effective verification role.

PART F – ANNUAL BENEFIT STATEMENTS

Chapter F1: Purpose and Background

- F1.1 The purposes of this part are to set out the information specified by the Authority as content requirements in respect of section 56(3)(fa) of the Regulation, and to give guidance to approved trustees on the approach and conditions of making available the information included in the annual benefit statement.
- F1.2 Section 56 of the Regulation requires approved trustees to provide scheme members with annual benefit statements. Section 56(3) sets out the information to be included in an annual benefit statement. Pursuant to section 56(3)(fa), the Authority may specify information to be contained in annual benefit statements.
- F1.3 The content requirements of the annual benefit statement were developed within the framework of the good disclosure principles set out in Part B of this Code. The annual benefit statement provides each member with a historical record of the member's account at a point in time, satisfying the second, third and fourth purposes for information provision set out in B1.2 above. It serves to confirm scheme membership and membership details, the status and the number of accounts held. It helps check inflows and outflows including contributions, transfer, withdrawal and transactions, and to identify account balances and accruals, the extent to which they are vested, and the gains and losses associated with their accounts over the relevant financial period.
- F1.4 This part contains the minimum content that should be contained in an annual benefit statement. Approved trustees are encouraged to extend the scope of the annual benefit statement to include other information they consider necessary to help meet the needs of members in managing their MPF savings, and the good disclosure principles set out in Part B above.

Chapter F2: Information specified by the Authority

- F2.1 This Chapter specifies the information to be contained as content requirements in annual benefit statements under section 56(3)(fa) of the Regulation. This is in addition to the content otherwise required under section 56(3).

Information specified as content requirements

- F2.2 The following information shall be set out in an annual benefit statement for the financial period it covers:
- (a) the total amount of contributions invested in that financial period;

- (b) the total amount of contributions invested (after fees) in that financial period;
- (c) the total amount transferred into the scheme in that financial period;
- (d) the total amount transferred into the scheme (after fees) in that financial period;
- (e) the total amount transferred out of or withdrawn from the scheme in that financial period;
- (f) the total amount transferred out of or withdrawn from the scheme (after fees) in that financial period;
- (g) the total amount of fees deducted on contributions, transfers and withdrawal in that financial period;
- (h) the total amount of fees charged on transactions where interests in constituent funds are bought or sold in that financial period;
- (i) the dollar amount of gain or loss of the account for the financial period, calculated in accordance with the following formula:

$$\begin{array}{rcl}
 \textit{Gain/Loss During} & = & \textit{Closing balance of the account (as will be shown in Part} \\
 \textit{The Financial Period} & & \textit{IA of the annual benefit statement for the period)} \\
 & \textit{less} & \textit{Opening balance of the account} \\
 & \textit{less} & \textit{total contribution invested} \\
 & \textit{less} & \textit{total amount transferred into the scheme} \\
 & \textit{plus} & \textit{total amount transferred out of or withdrawn from the} \\
 & & \textit{scheme (after fees)}
 \end{array}$$

- (j) the dollar amount of gain or loss since inception of the account, calculated in accordance with the following formula:

$$\begin{array}{rcl}
 \textit{Gain/Loss Since} & = & \textit{Closing balance of the account (as will be shown in Part} \\
 \textit{Inception} & & \textit{IA of the annual benefit statement for the period)} \\
 & \textit{less} & \textit{total contribution invested since inception} \\
 & \textit{less} & \textit{total amount transferred into the scheme since inception} \\
 & \textit{plus} & \textit{total amount transferred out of or withdrawn from the} \\
 & & \textit{scheme (after fees) since inception}
 \end{array}$$

- (k) the contributions from current employment;
- (l) the contributions from former employment;
- (m) the dollar amount of employer's voluntary contributions vested in the member's account;
- (n) the total dollar amount vested in the member's account;
- (o) the periods with contribution and/or surcharges outstanding;
- (p) the date on which notification of a transfer under section 148A of the Regulation is effected;
- (q) the frequency with which a transfer under 148A of the Regulation can be made; and

- (r) a pie chart containing the fund allocation of the closing balance (as required under section 56(3)(c) of the Regulation) in either of these two formats:
 - (i) one which includes the name of each constituent fund invested with respect to the member's accrued benefits, and the holding in each of those constituent funds expressed as a percentage of the closing balance; or
 - (ii) one which includes:
 - (1) for the five largest holdings (or a higher number of the largest holdings at the discretion of the approved trustee), the names of such constituent funds invested with respect to the member's accrued benefits, and the holding in each of those constituent funds expressed as a percentage of the closing balance; and
 - (2) for the rest of the holdings in constituent funds invested with respect to the member's accrued benefits, the aggregate of such holdings expressed as a percentage of the closing balance, and a reference to such aggregate as "Others", and

for the avoidance of doubt, if the number of holdings in constituent funds invested with respect to the member's accrued benefits is not more than five, the format as described in paragraph (r)(i) above should be adopted.

Information specified as content requirements in respect of each contribution, transfer, withdrawal and transaction

F2.3 Subject to F2.4, the following information shall be set out in an annual benefit statement for the financial period it covers:

- (a) The following details regarding each contribution:
 - (i) the end date of the relevant contribution period for each mandatory contribution received by the trustee or, at the trustee's election if contributions are paid more frequently than monthly, the end date of the last contribution period in a calendar month;
 - (ii) the amount of each contribution or, at the trustee's election if contributions are paid more frequently than monthly, the total amount of contributions in each month as at the end date of the last contribution period in that month;
 - (iii) the amount of any fees deducted from each contribution or, at the trustee's election if contributions are paid more frequently than monthly, the total amount of fees deducted from the total amounts of contributions in each month as at the end date of

the last contribution period in that month; and

- (iv) the amount invested after the deduction of any fees and charges or, at the trustee's election if contributions are paid more frequently than monthly, the total amount invested after the deduction of any fees and charges in each month as at the end date of the last contribution period in that month;

where a member has voluntary contributions in addition to mandatory contributions, the details required under paragraphs (a)(ii) to (iv) above shall be shown separately for each type of contribution;

and where a member has tax deductible voluntary contributions, the details required under paragraphs (a)(ii) to (iv) above shall be shown separately for each tax deductible voluntary contribution where relevant, including at a minimum, the date, the amount, the fees deducted and the amount invested (after fees) of each tax deductible voluntary contribution.

- (b) The following details of each transfer or withdrawal:
 - (i) the date of the transfer or withdrawal;
 - (ii) the amount transferred or withdrawn before the deduction of any fees and charges;
 - (iii) the amount of any fees deducted from the amount transferred or withdrawn;
 - (iv) the amount transferred or withdrawn after the deduction of any fees and charges; and
 - (v) the nature of the transfer or withdrawal.
- (c) For each constituent fund, the following details of each transaction where interests in that constituent fund are bought or sold:
 - (i) the transaction date;
 - (ii) the nature of the transaction (e.g. purchase or sale);
 - (iii) the net amount transacted for investment after fees;
 - (iv) the number of units transacted in each constituent fund;
 - (v) the purchase or sale price of units;
 - (vi) any fees deducted; and
 - (vii) the resulting balance of units held in each constituent fund in which transactions occurred.

is not required to set out the information referred to in F2.3 if:

- (a) at all times throughout the financial period covered by that annual benefit statement, the information referred to in F2.3 for the six most recent quarters (or, if a scheme has been in existence for less than six quarters, all quarters since the inception of the scheme) is made available to all members through paper-based, electronic, web-based or other means (provided that a paper-based option must be available for those who request it);
- (b) the information made available pursuant to (a) above must be updated and made available within 30 days after the end of the relevant quarter; and
- (c) the annual benefit statement states the nature of the information referred to in (a) above and how and when it can be accessed.

Flow of information

F2.5 The opening section of an annual benefit statement should contain the following information in a table:

- (a) the opening balance, as required under section 56(3)(c) of the Regulation;
- (b) the total amount of contributions invested in that financial period, as required under F2.2(a) above;
- (c) the total amount transferred into scheme in that financial period, as required under F2.2(c) above;
- (d) the total amount transferred out of or withdrawn from scheme (after fees) in that financial period, as required under F2.2(f) above⁶;
- (e) the dollar amount of gain or loss of the account for the financial period, as required under F2.2(i) above;
- (f) the closing balance, as required under section 56(3)(c) of the Regulation; and
- (g) a pie chart containing the information required under F2.2(r) above,

in the manner set out in Part 1A of the form of annual benefit statement attached as Appendix F or G.

⁶ If no fees, including but not limited to bid spread and withdrawal charge, are incurred in that financial period, the presentation of this item should be in the manner set out in Part 1A of the form of the annual benefit statement attached as Appendix F or G. If, however, such fees are incurred in that financial period, the words “(after fees)” should be included so that the item will be presented as “Total Amount Transferred Out of or Withdrawn From Scheme (after fees)”.

Standardized terms

- F2.6 The glossary of Standardized Terms used in the Annual Benefit Statement set out in Appendix E (the Glossary) shall be adopted for use in the annual benefit statement.
- F2.7 The Glossary (amended as appropriate for schemes where some terms are not used) should be provided with the first annual benefit statement issued in respect of financial periods ending after 1 September 2009. The Glossary should thereafter be made available to members, for example by making copies available on request and on relevant websites, if any.

Caution statement on exit value

- F2.8 To highlight the possibility of a difference between the actual exit values and the values shown in the annual benefit statement at a specified date, a caution statement to the following effect shall be set out in the annual benefit statement:

“CAUTION: The actual amount that you would have got if you had withdrawn funds from the scheme on the date of this statement may be less than the amounts shown in this statement. This is because there may be other deductions or adjustments made according to the scheme rules, such as fees and charges associated with your withdrawal. For clarification, please contact hotline at XXXX-XXXX.”

Chapter F3: Form of Annual Benefit Statements

- F3.1 The purpose of this Chapter is to set out the forms of annual benefit statements which would comply with the requirements in section 56 of the Regulation, including the requirements under Chapter F2.
- F3.2 Appendix F sets out a form of annual benefit statement for cases where F2.4 does not apply. This form of annual benefit statement is, with the exception of Part 1A, provided for guidance.
- F3.3 Appendix G sets out a form of annual benefit statement for cases where F2.4 applies. This form of annual benefit statement is, with the exception of Part 1A, provided for guidance.

**PART G –PRESENTATION OF INFORMATION AND RISK DISCLOSURE IN THE MPF
SCHEME BROCHURE OF A REGISTERED SCHEME**

Chapter G1: Purpose and Background

- G1.1 The purpose of this part is to give guidance on the manner in which approved trustees should present information and risk disclosure in the MPF scheme brochure of a registered scheme. Specifically, it intends to supplement requirements in Chapter 5 of the SFC Code.
- G1.2 The requirements in this part are developed within the framework of the good disclosure principles set out in Part B of this Code with the objective of providing information that is presented in a clear, concise and easy-to-understand manner in order to promote readability and recognition of the MPF scheme brochure, and to facilitate comparison between different registered schemes and decision making by participating employers, scheme members, prospective participating employers and prospective scheme members.
- G1.3 This part contains the minimum requirements that should be adopted in an MPF scheme brochure. Approved trustees are encouraged to extend the scope of these requirements to cover areas of presentation of information and risk disclosure in the MPF scheme brochure they consider necessary to help meet the needs of members in managing their MPF savings, within the framework of the good disclosure principles set out in Part B above.

Chapter G2: Presentation of Information

- G2.1 This chapter specifies the minimum requirements for presenting information in the MPF scheme brochure of a registered scheme.
- (a) **Standardized name** – MPF scheme brochures are to be referred to as “MPF Scheme Brochure” as the standardized name.
- (b) **Standardized information on cover page** – The cover page of the MPF scheme brochure should contain the standardized minimum information items set out as follows:
- (i) the standardized name “MPF Scheme Brochure” (to be displayed prominently);
 - (ii) the name of the registered scheme (to be displayed prominently);
 - (iii) the name of the approved trustee and sponsor, as appropriate;
 - (iv) the version date of the MPF scheme brochure;
 - (v) the enquiry contact, e.g. hotline, email address; and
 - (vi) the website information of the approved trustee, sponsor or relevant service providers, as appropriate.

Approved trustees have the flexibility to design the graphics for the cover page of the MPF scheme brochure, e.g. whether to include the logo of the approved trustee or sponsor, as appropriate. A sample of the cover page is attached at Appendix H for reference.

(c) **Sequence of contents** – The contents of MPF scheme brochures should be set out in the same sequence as follows, and set out in the “table of contents” referred to in (ii) below:

- (i) risk disclosure statement upfront⁷;
- (ii) table of contents;
- (iii) introduction;
- (iv) directory of approved trustee and other service providers;
- (v) fund options, investment objectives and policies;
- (vi) risks;
- (vii) fees and charges;
- (viii) administrative procedures (e.g. contributions, withdrawals);
- (ix) other information (e.g. tax, personal data privacy); and
- (x) glossary (where applicable).

(d) **Scheme structure** – The structure of the registered scheme is to be presented and set out in the MPF scheme brochure by way of a chart (e.g. master trust scheme, constituent funds and underlying funds in the scheme).

(e) **Directory of approved trustee and other service providers** – The approved trustee and major service providers of the registered scheme (e.g. custodian, investment manager, sponsor, promoter) are to be presented and set out in a table or a box in the MPF scheme brochure⁸.

(f) **Standardized table for constituent funds** – Key features of the constituent funds in the registered scheme are to be presented and set out in the MPF scheme brochure in a table in the following manner:

- (i) the name of the constituent fund;
- (ii) the name of the investment manager of the constituent fund;
- (iii) the fund structure of the constituent funds (e.g. investing directly, in a single APIF, in two or more APIFs);
- (iv) the fund descriptor of the constituent fund as specified in D2.3(k) of this Code; and
- (v) the investment focus of the constituent fund, e.g. the type of assets invested in and the maximum weightings.

A sample of the standardized table is attached at Appendix H for reference.

⁷ As required by SFC.

⁸ Information disclosed is to be determined by approved trustees subject to requirements of the SFC and the Authority.

- (g) **Subsequent amendments to MPF scheme brochures** – Changes to the MPF scheme brochure set out in addenda should be incorporated into the main text of the MPF scheme brochure at least once every three years or after three addenda have been issued whichever is earlier. The size and complexity of individual amendments that may warrant a different approach will be considered on an exceptional basis.
- (h) **Physical attributes** – MPF scheme brochures should use a paper size of A4 and a font size of 10 points or larger, and allow sufficient spacing in presenting the content of the MPF scheme brochure.
- (i) **General** – In line with the good disclosure principles set out in B2.14, use plain language, simple sentence and standard terminology, and make better use of content divisions, colour, special effects (e.g. bolded heading, title, highlights), visual aids (e.g. charts and tables) to increase prominence, clarity and readability of the MPF scheme brochure.

Chapter G3: Disclosure of Risks of Constituent Funds

G3.1 This chapter sets out additional requirements on the disclosure and classification of risks of each constituent fund in the MPF scheme brochure of a registered scheme, supplementing requirements set out in Chapter 5 of the SFC Code. The additional disclosure will increase the prominence of risk disclosure and standardize the classification of the risks of constituent funds in the MPF scheme brochure, with the objective of providing risk descriptions that promote understanding of the relative risks between different constituent funds within and across registered schemes.

Risk class

G3.2 A risk class is to be assigned to each constituent fund according to the seven-point risk classification below based on the latest fund risk indicator of the constituent fund, as required in D2.3(j).

Risk Class	Fund Risk Indicator	
	Equal or above	Less than
1	0.0%	0.5%
2	0.5%	2.0%
3	2.0%	5.0%
4	5.0%	10.0%
5	10.0%	15.0%
6	15.0%	25.0%
7	25.0%	

G3.3 The latest risk class of a constituent fund should be made available in the fund fact sheet of a registered scheme as required under D2.3(1), and on the website of the approved trustee, the sponsor or the relevant service providers, where information about a registered scheme and its constituent funds is disclosed.

G3.4 Information on the risks of constituent funds is to be presented in the MPF scheme brochure of a registered scheme in the following manner:

- (a) **Section for “Risks”** - A separate section for “Risks” which lists and describes all the risk factors that are applicable to constituent funds of the registered scheme, should be created and provided in the MPF scheme brochure, as specified in G2.1(c)(vi). A sample is attached at Appendix H for reference.
- (b) **Risks of the constituent fund** – A sub-section for “Risks of the Constituent Fund” which lists the names of all the risk factors applicable to a specific constituent fund of the registered scheme, should be created and provided in the MPF scheme brochure as specified in G2.1(c)(v) for “fund options, investment objectives and policies”. A sample is attached at Appendix H for reference.
- (c) **Signposting the risk class of the constituent fund** - Approved trustees are not required to disclose the risk class of constituent funds in the MPF scheme brochures of registered schemes. MPF scheme brochures should disclose prominently the availability of information about the risk class of constituent funds of the registered scheme by using words similar in effect to the following:

“Information about the latest risk class of each constituent fund under the scheme is available in the latest fund fact sheet of the scheme and the following website [*insert as appropriate*: “website of the approved trustee, the sponsor or relevant service providers”].”

PART H – KEY SCHEME INFORMATION DOCUMENT

Chapter H1: Purpose and Background

- H1.1 The purpose of this part is to give guidance on the manner in which approved trustees should present information in the key scheme information document.
- H1.2 The requirements of the key scheme information document are developed within the framework of the good disclosure principles set out in Part B of this Code.

Chapter H2: Requirements of the Key Scheme Information Document

- H2.1 This chapter sets out the requirements of the key scheme information document of a registered scheme.
- (a) **Standardized name** – Key scheme information documents are to be referred to as “Key Scheme Information Document” as the standardized name.
 - (b) **Standardized information on cover page** – The cover page of the key scheme information document should contain the standardized information items set out as follows:
 - (i) the standardized name “Key Scheme Information Document” (to be displayed prominently);
 - (ii) the name of the registered scheme (to be displayed prominently);
 - (iii) the name of the approved trustee and sponsor, as appropriate;
 - (iv) the date of the financial year end of the registered scheme;
 - (v) the number of constituent funds under the registered scheme;
 - (vi) a table of contents (the headings should follow those in H2.1 (c) below); and
 - (vii) a statement (to be displayed prominently): “This Key Scheme Information Document (KSID) provides you with key information about [name of registered scheme] which forms part of the offering document. You should not make investment decisions based solely on this KSID. For details of [name of the registered scheme], please refer to the MPF Scheme Brochure and the trust deed of [name of the registered scheme] [web link and/or QR code to the MPF Scheme Brochure and the trust deed of the registered scheme]”.

Approved trustees have the flexibility to design the graphics for the cover page of the key scheme information document, e.g. whether to include the logo of the approved trustee or sponsor, as appropriate.

- (c) **Sequence of contents** – The contents of key scheme information documents should be set

out in the same sequence under the standardized headings as follows:

- (i) Why is MPF important to you?
 - (ii) Your MPF contributions
 - (iii) How do we invest your money?
 - (iv) What are the risks of your MPF investment?
 - (v) How to transfer your MPF?
 - (vi) How to manage your MPF when changing jobs?
 - (vii) When should you adjust your MPF fund choices?
 - (viii) When can you withdraw your MPF?
 - (ix) Additional information useful to you
 - (x) How to make enquiries and complaints?
- (d) **Access to layer 2 documents**⁹ – when documents are referred to in the key scheme information document, ways to access these documents should be provided (e.g. web link, QR code) in the key scheme information document.
- (e) **Subsequent amendments to key scheme information documents** – Subsequent changes to the key scheme information document should be incorporated into the key scheme information document. No use of addendum is allowed.
- (f) **Physical attributes** – Key scheme information documents should be up to a maximum of 8 pages of A4 size¹⁰ and use a font size of 10 points or larger, and allow sufficient spacing in presenting the content of the key scheme information document.
- (g) **General** – In line with the good disclosure principles set out in B2.14, use plain language, simple sentence and standard terminology, and make better use of content divisions, colour, special effects (e.g. bolded heading, title, highlights), visual aids (e.g. icons, charts and tables) to increase prominence, clarity and readability of the key scheme information document.

H2.2 An illustrative key scheme information document template which provides guidance on how information is required to be disclosed under Part H of this Code under each heading in the template is attached at Appendix I for reference.

⁹ Layer 2 documents are documents referred to in the key scheme information document.

¹⁰ The 8-page limit could only be relaxed on a case by case basis.

PART I – IMPLEMENTATION AND TRANSITIONAL TIMING

Chapter I1: General

- I1.1 The purpose of this part is to provide guidance on transitional and implementation issues arising out of the contents of other parts of this Code. In particular, this part sets out when the guidance provided in this Code should first apply.
- I1.2 Generally, the guidance set out in this Code should be complied with immediately upon publication of the Code, subject to the transitional provisions set out in Chapter I2 below.

Chapter I2: Transitional Provisions

On-going Cost Illustrations of registered schemes

- I2.1 The guidance in relation to publishing the On-going Cost Illustrations should first apply when the FER for the relevant constituent funds are calculated for the first time. Approved trustees should prepare and update the On-going Cost Illustrations within six months after the end of each financial period of a registered scheme.
- I2.2 Amendments to offering documents and other materials, signposting the availability of On-going Cost Illustrations and the CPF example as set out in C2.16, should be completed by the time that the first On-going Cost Illustrations are distributed.

MPF Scheme Brochure

- I2.3 Amendments to Parts A, C and G of and Appendix H to this Code will take effect in relation to the MPF scheme brochure of a registered scheme that is made available to members on or after 30 June 2022.

Key Scheme Information Document

- I2.4 Amendments to Parts A and C and requirements in Part H of and Appendix I to this Code will take effect in relation to the key scheme information document of a registered scheme that is made available to members on or after 30 June 2022.

APPENDIX A: FEE TABLE

The following template should be used for the Fee Table referred to in Part C. Instructions for completing the template are set out after the table.

Fee Table

The following table describes the fees, expenses and charges that participating employers and members may pay upon and after joining the scheme. Important definitions and explanatory notes are set out at the bottom of the table.

(A) JOINING FEE & ANNUAL FEE					
Type of fees	Current amount (HK\$)			Payable by	
	Class A	Class B	Class C		
Joining fee ¹					
Annual fee ²					
(B) FEES, EXPENSES AND CHARGES PAYABLE ARISING FROM TRANSACTIONS IN INDIVIDUAL MEMBER'S ACCOUNT					
Type of fees, expenses & charges	Name of constituent fund	Current level			Payable by
		Class A	Class B	Class C	
Contribution charge ³	Capital preservation fund	N/A			
	Constituent fund 1	<i>(e.g. x% of contribution amount)</i>			
	Constituent fund 2				
Offer spread ⁴	Capital preservation fund	N/A			
	Constituent fund 1	<i>(e.g. y % of unit NAV)</i>			
	Constituent fund 2				
Bid spread ⁵	Capital preservation fund	N/A			
	Constituent fund 1	<i>(e.g. z % of unit NAV)</i>			
	Constituent fund 2				
Withdrawal charge ⁶	Capital preservation fund	N/A			
	Constituent fund 1	<i>(e.g. xx % of withdrawal amount)</i>			
	Constituent fund 2				

(C) FEES, EXPENSES AND CHARGES OF CONSTITUENT FUNDS					
Type of fees, expenses & charges	Name of constituent fund	Current level			Deducted from
		Class A	Class B	Class C	
Management fees ⁷	Capital preservation fund	(e.g. x % p.a. of NAV)			<i>Relevant constituent fund assets / Relevant member's account by unit deduction / Other methods (Please provide a brief description)</i>
	Constituent fund 1				
	Constituent fund 2				
Guarantee charge ⁸ (if the scheme offers guaranteed funds)	Name(s) of guaranteed fund(s)				
Other expenses	[Certain recurrent expenses relating to the Core Accumulation Fund and the Age 65 Plus Fund are subject to a statutory annual limit of 0.20% of the net asset value of those funds and will not be charged to or imposed on the fund in excess of that amount]				
(D) FEES, EXPENSES AND CHARGES OF UNDERLYING FUNDS					
(E) OTHER FEES , EXPENSES AND CHARGES FOR PROVIDING ADDITIONAL SERVICES					

DEFINITIONS

The following are the definitions of the different types of fees and charges.

1. **“Joining fee”** means the one-off fee charged by the trustee/sponsor of a scheme and payable by the employers and/or members upon joining the scheme.
2. **“Annual fee”** means the fee charged by the trustee/sponsor of a scheme on an annual basis and payable by the employers and/or members of the scheme.
3. **“Contribution charge”** means the fee charged by the trustee/sponsor of a scheme against any contributions paid to the scheme. This fee is usually charged as a percentage of contributions and will be deducted from the contributions. This charge does not apply to a capital preservation fund.
4. **“Offer spread”** is charged by the trustee/sponsor of a scheme upon subscription of units of a constituent fund by a scheme member. Offer spread does not apply to a capital preservation fund.

Offer spread for a transfer of benefits can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or purchasing investments in order to give effect to the transfer and are payable to a party other than the trustee.

5. “**Bid spread**” is charged by the trustee/sponsor of a scheme upon redemption of units of a constituent fund by a scheme member. Bid spread does not apply to a capital preservation fund. Bid spread for a transfer of benefits, withdrawal of benefits in a lump sum, or the first four withdrawals of benefits by instalments in a year can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or purchasing investments in order to give effect to the transfer or withdrawal and are payable to a party other than the trustee.
6. “**Withdrawal charge**” means the fee charged by the trustee/sponsor of a scheme upon withdrawal of accrued benefits from the scheme. This fee is usually charged as a percentage of the withdrawal amount and will be deducted from the withdrawal amount. This charge does not apply to a capital preservation fund. A withdrawal charge for a transfer of benefits, withdrawal of benefits in a lump sum, or the first four withdrawals of benefits by instalments in a year can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or purchasing investments in order to give effect to the transfer or withdrawal and are payable to a party other than the trustee.
7. “**Management fees**” include fees paid to the trustee, custodian, administrator, investment manager (including fees based on fund performance, if any) and sponsor or promoter of a scheme for providing their services to the relevant fund. They are usually charged as a percentage of the net asset value of a fund. In the case of the Core Accumulation Fund and the Age 65 Plus Fund, management fees payable to the parties named above, or their delegates, can only (subject to certain exceptions in the Ordinance) be charged as a percentage of the net asset value of the fund. These management fees are also subject to a statutory daily limit equivalent to 0.75% per annum of the net asset value of the fund which applies across both the fund and underlying funds.
8. “**Guarantee charge**” refers to an amount that is deducted out of the assets of a guaranteed fund for the purpose of providing the guarantee. This fee is usually charged as a percentage of the net asset value of a guaranteed fund.

EXPLANATORY NOTES

In respect of any increase in fees and charges from the current level as stated, at least three months’ prior notice must be given to all scheme members and participating employers.

Instructions to approved trustees for completing the table

- a. Where a particular fee or charge under each of Parts (A) to (D) in the table is currently nil, waived or is not applicable to the relevant scheme, put “Nil” (or alternatively “\$0” or “Zero”), “currently waived” or “N/A” in the appropriate boxes.
- b. For constituent funds with more than one class of unit, the fees, expenses and charges for all classes should be stated.
- c. Formats would need to be adjusted as necessary to accommodate multiple funds and classes.
- d. Where the maximum levels of any fees and charges as prescribed in the trust deed of a registered scheme are not disclosed in the fee table, they should be clearly set out within the fees and charges section of documents (such as offering documents) that contain the fee information.
- e. The fee table should be accompanied by descriptions of when and how a particular fee or charge will be paid by the relevant parties within the fees and charges section of documents (including the offering documents) that contain the fee information.
- f. Breakdown of management fees (such as investment management fee, trustee fee, custodian fee and administration fee) may be disclosed within the fees and charges section of documents (including the offering documents) that contain the fee information.
- g. Under the item “Other Expenses” in Part (C), provide a list of all other expenses including, where applicable, compensation fund levy, establishment cost of the scheme, indemnity insurance, auditor’s fees and legal charges. The dollar amount of any establishment cost that is charged to the scheme should be stated. The method used to deduct the expenses should also be disclosed where appropriate.
- h. Part (D) relating to “FEES, EXPENSES AND CHARGES OF UNDERLYING FUNDS” should include available information about fees, expenses and charges of underlying funds that can help scheme members to understand the fees, expenses and charges that apply at that level. This may for example include the following:
 - (i) for constituent funds that take the form of a feeder fund or portfolio management fund (i.e. fund of funds), the various fees, expenses and charges in Parts (B) and (C) which are applicable to all underlying funds and payable by the relevant constituent fund as a unit holder of those underlying funds. The fee information should be disclosed in tabular form similar to the format in Parts (B) and (C) of the table; and
 - (ii) for constituent funds that invest directly in permissible investments, a statement should be included to the effect that fees, expenses and charges will be incurred by the constituent fund when/if it invests in other funds, identifying where possible, the types of fees, expenses and charges.
- i. Disclosure of fees, expenses and charges in Parts (C) and (D) may be combined, but only if all the fees, expenses and charges can be accurately disclosed in that way. For these cases, it is not necessary to include Part (D) in the table but a note must be added in Part (C) to the effect that the fees, expenses and charges stated reflect fees, expenses and charges of both the constituent funds

and all the underlying funds.

- j. Under Part (E) “OTHER FEES, EXPENSES AND CHARGES FOR PROVIDING ADDITIONAL SERVICES”, insert a list of all fees, expenses and charges, including the amounts, that will be charged upon providing services such as additional annual benefit statements, copies of trust deeds, etc. The party that will receive the fee/expense/charge and the party to be charged should also be disclosed.
- k. The text in italics is inserted for illustration or example. This text will need to be adjusted as appropriate.
- l. Further explanatory notes may be added to the table where disclosure will be improved in accordance with the good disclosure principles set out in Part B of this Code. If, for example, rebates are offered to some members, a note should be included stating that the Fee Table does not take into account any fee rebate that may be offered to some members of the scheme.

APPENDIX B: ON-GOING COST ILLUSTRATIONS

The following template should be used for the On-going Cost Illustrations referred to in Part C. Instructions for completing the template are set out below.

ON-GOING COST ILLUSTRATIONS FOR {NAME OF REGISTERED SCHEME}

Issued [date]

ABOUT THIS ILLUSTRATION

This is an illustration of the total effect of fees, expenses and charges on each HK\$1,000 contributed in the funds named below. The fees, expenses and charges of a fund are one of the factors that you should consider in making investment decisions across funds. You should however also consider other important information such as the risks of the fund, the nature of the fund, the attributes of relevant parties, the range and quality of services being offered and, most importantly, your own personal circumstances and expectations. The information about fees, expenses and charges set out in this table is intended to help you compare the cost of investing in one constituent fund with the cost of investing in other constituent funds.

The Illustration has been prepared based on some assumptions that are the same for all funds. The Illustration assumes the following:

- (a) a gross contribution of HK\$1,000 is made in the respective constituent fund now and, being eligible to do so, you withdraw all of your accrued benefits arising from this contribution at the end of each time period indicated;
- (b) for the purpose of this illustration only, the contribution has a 5% gross return each year [It is important that you note that the assumed rate of return used in this document is for illustrative and comparative purposes only. The return is neither guaranteed nor based on past performance. The actual return may be different.]; and
- (c) the expenses of the funds (expressed as a percentage called the “fund expense ratio” below) remain the same for each fund for all the periods shown in this illustration.

BASED ON THE ABOVE ASSUMPTIONS, YOUR COSTS ON EACH HK\$1,000 CONTRIBUTED ARE ILLUSTRATED IN THE FOLLOWING TABLE. PLEASE NOTE THAT THE ACTUAL COSTS WILL DEPEND ON VARIOUS FACTORS AND MAY BE DIFFERENT FROM THE NUMBERS SHOWN BELOW.

Name of constituent fund		Fund expense ratio for financial period ended [mm/yy]	Cost on each HK\$1,000 contributed		
			After 1 year (HK\$)	After 3 years (HK\$)	After 5 years (HK\$)
Constituent fund 1	Class A				
	Class B				
	Class C				
Constituent fund 2	Class A				
	Class B				
	Class C				

Note:

{Insert the following statement if it is applicable to the scheme} The example does not take into account any fee rebates that may be offered to certain members of the scheme.

Instructions to approved trustees for completing the illustrations

- a. For constituent funds with different classes, the cost of each class should be disclosed.
- b. For the purpose of calculating the figures in the columns headed “After 1 year”, “After 3 years” and “After 5 years”,
 - (i) Use the current level of contribution charge and offer spread stated in the Fee Table in order to arrive at the net contribution amount invested into a constituent fund. If the current level in the Fee Table is a range, the maximum level of that range should be used.
 - (ii) Use the fund expense ratios (FER) of constituent funds or where relevant, classes of the constituent funds for the immediate past financial period and assume that they remain the same for all periods. If a FER includes expenses of a non-recurring nature (limited to set-up costs, restructuring costs and costs relating to system enhancements due to any legislative/guidelines amendments), the calculation of the table should be adjusted to take out the effect of those non-recurring expenses. In such cases, an explanatory note should accompany the illustrations in terms such as the following *“To improve the utility of these illustrations, the calculations have been adjusted to take out the effect of some non-recurring set-up costs”*.
 - (iii) If the FER includes some element of performance-based fees, then in addition to the usual presentation, the table may also show, or explain, the impact if the performance-based element of the fee was not included.

- (iv) Use the current level of bid spread and withdrawal charge stated in the Fee Table in order to arrive at the respective cost after each time period. If the current level in the Fee Table is a range, the maximum level of that range should be used.
 - (v) For funds where the period between the inception date of the fund and the end date of the relevant financial period of the scheme is one year or less, insert a note or footnote to the effect that no figures are available because this is a new fund.
- c. Round all cents to the nearest dollar.
 - d. For simplicity, assume the annual fund operating charges and expenses of a constituent fund are only calculated and deducted at the end of each year. The investment return is also attributed at the end of a year. Also assume that there are no distributions from the funds during the time periods shown.

APPENDIX C: ILLUSTRATIVE EXAMPLE FOR CAPITAL PRESERVATION FUNDS

The following template should be used for the illustrative example for capital preservation funds referred to in Part C. Instructions for completing the template are set out below.

ILLUSTRATIVE EXAMPLE FOR
{NAME OF CAPITAL PRESERVATION FUND} OF THE
{NAME OF REGISTERED SCHEME}

Issued [date]

PURPOSE OF THE EXAMPLE

This example is intended to help you compare the total amounts of annual fees and charges payable under this Scheme with those under other registered schemes.

THIS EXAMPLE ASSUMES THAT :

Your MPF Account Activities

- (a) your monthly relevant income is HK\$8,000
- (b) you have put all your accrued benefits into the Capital Preservation Fund; you have not switched your accrued benefits to other constituent funds during the financial period
- (c) you have not transferred any accrued benefits into or out of this Scheme during the financial period

Your Company Profile

- (d) 5 employees (including yourself) of your employer participate in this Scheme
- (e) the monthly relevant income of each employee is HK\$8,000
- (f) no voluntary contribution is made
- (g) each of the other 4 employees has the same MPF account activities as yours

Investment Return and Savings Rate

- (h) the monthly rate of investment return is 0.5% on total assets
- (i) the prescribed savings rate is 3.25% per annum throughout the financial period

[Insert the following paragraph if the capital preservation fund maintains an internal portfolio]

Based on these assumptions, the **total amounts of annual fees** you need to pay under this Scheme in one financial period would be : HK\$_____.

[Insert the following paragraph if the capital preservation fund is a feeder fund]

Based on these assumptions, the **total amounts of annual fees** you need to pay under this Scheme (including those payable to the underlying approved pooled investment fund) in one financial period would be : HK\$_____.

Warning : This is just an illustrative example. The actual amounts of fees you need to pay may be **higher or lower**, depending on your choice of investments and activities taken during the financial period.

Instructions to approved trustees for completing the example

- a. For the purposes of this illustrative example, “fees” refers to the total amount of money payable by a scheme member, directly or indirectly to any party which renders services in the administration of a registered scheme, regardless of whether the fees are to be deducted from the scheme member’s account or paid by the scheme member or employer separately.
- b. Where the capital preservation fund of the scheme invests in an approved pooled investment fund (APIF), the fees also include those of the APIF chargeable to the capital preservation fund.
- c. Round all cents to the nearest dollar and all percentages to the nearest hundredth of one percent.

APPENDIX D: ILLUSTRATIONS OF THE FER CALCULATION

This Appendix illustrates the calculation of FER for each class of units of a constituent fund called Global Fund for the financial year ending 31 December 2004. It is provided to assist approved trustees and operators of APIFs in understanding how to calculate the FER of funds.

The FER of each class is calculated by the formula:

$$\text{FER (\%)} = \text{direct expense (\%)} + \text{underlying fund costs (\%)} \pm \text{any adjustments permitted or required by the Authority in any individual case}$$

Step 1: Calculation of “average NAV” of each class of units of Global Fund

Assumptions:

1. Global Fund issues 3 classes of units: Classes A, B and C.

NAV Information:

Pricing points	Class A	Class B	Class C	Total
	NAV (in HK\$'000)			
31 Jan 04	1,000	2,000	3,000	6,000
29 Feb 04	2,000	4,000	6,000	12,000
31 Mar 04	3,000	6,000	9,000	18,000
30 Apr 04	4,000	8,000	12,000	24,000
31 May 04	5,000	10,000	15,000	30,000
30 Jun 04	6,000	12,000	18,000	36,000
31 Jul 04	7,000	14,000	21,000	42,000
31 Aug 04	8,000	16,000	24,000	48,000
30 Sep 04	9,000	18,000	27,000	54,000
31 Oct 04	10,000	20,000	30,000	60,000
30 Nov 04	11,000	22,000	33,000	66,000
31 Dec 04	12,000	24,000	36,000	72,000

Calculation of the “average NAV”:

(a) Sum of NAV at pricing points	78,000	156,000	234,000	
(b) No. of pricing points	12	12	12	
Average NAV: (a) divided by (b)	6,500	13,000	19,500	

Step 2: Calculation of “expenses” of each class of units

<u>Assumptions:</u>	
1.	The expenses of Global Fund for the year ending 31 December 2004 attributable to Classes A, B and C are HK\$65,000, HK\$260,000 and HK\$585,000 respectively.
2.	During the year, in addition to charging the expenses mentioned in (1) above against the fund assets, the sponsor of Global Fund charges an additional asset fee by deducting the equivalent value of units in member’s accounts (instead of charging it against the fund assets). The amounts of fee so deducted are Class A: HK\$65,000, Class B: HK\$130,000 and Class C: HK\$195,000.

	Class A	Class B	Class C
Expenses attributable to each class	HK\$65,000	HK\$260,000	HK\$585,000
+Adjusted unit expenses	HK\$65,000	HK\$130,000	HK\$195,000
Total	HK\$130,000	HK\$390,000	HK\$780,000

Step 3: Calculation of “direct expense” of each class of units

Direct expense (%)	=	$\frac{\text{“expenses” of the class}}{\text{average NAV of the class}} \times 100\%$	
Class A expense (%)	=	HK\$130,000 / HK\$6,500,000 x 100%	= 2.00%
Class B expense (%)	=	HK\$390,000 / HK\$13,000,000 x 100%	= 3.00%
Class C expense (%)	=	HK\$780,000 / HK\$19,500,000 x 100%	= 4.00%

Step 4: Calculation of “underlying fund costs” of each class of units

<u>Assumptions:</u>				
1.	Global Fund invested in two APIFs during the year called APIF-A and APIF-B.			
2.	Global Fund also invested in a collective investment scheme named CIS for eight months during the year. Global Fund held no cash or other investments at any pricing point.			
3.	APIF-A has financial year ending at 31 December each year. FER of APIF-A for the financial year ending 31 December 2004 is 2.00%.			
4.	APIF-B has financial year ending at 30 June each year. FER of APIF-B for the financial year ending 30 June 2004 is 1.00%.			
5.	CIS has financial year ending at 30 September each year. No FER is provided in the prospectus of CIS. Financial statements of CIS for the year ending 30 September 2004 indicates the total expenses of HK\$16 million in the income statement. Balance sheet of CIS indicates that the NAV of CIS as at 30 September 2003 and 30 September 2004 is, respectively, HK\$1.5 billion and HK\$1.7 billion.			
Pricing points	APIF-A	APIF-B	CIS	Total
	Asset allocation (in %)			
31 Jan 04	40%	50%	10%	100%
29 Feb 04	40%	50%	10%	100%
31 Mar 04	40%	50%	10%	100%
30 Apr 04	40%	50%	10%	100%
31 May 04	50%	45%	5%	100%
30 Jun 04	50%	45%	5%	100%
31 Jul 04	50%	45%	5%	100%
31 Aug 04	50%	45%	5%	100%
30 Sep 04	60%	40%	0%	100%
31 Oct 04	60%	40%	0%	100%
30 Nov 04	60%	40%	0%	100%
31 Dec 04	60%	40%	0%	100%
<i>Calculation of the H - the average holding of the APIF and CIS</i>				
(a) Sum of the holdings	600%	540%	60%	
(b) Number of pricing points	12	12	12	
Average holding (H): (a) divided by (b)	50%	45%	5%	
<i>Calculation of the H x E</i>				
	APIF-A	APIF-B	CIS	
Average holding (H)	50%	45%	5%	
Latest FER (E)	2.00%	1.00%	1.00%*	
	(y.e. 31/12/04)	(y.e. 30/6/04)	(y.e. 30/9/04)	
Underlying fund costs (%)	1.00%	0.45%	0.05%	
<i>Calculation of the $\sum H \times E = 1.00\% + 0.45\% + 0.05\% = 1.50\%$</i>				

* estimated as $\text{HK\$}16\text{M} / [(\text{HK\$}1.5\text{B} + \text{HK\$}1.7\text{B}) / 2] \times 100\%$

Step 5: The total FER

Based on the above assumptions, the FER for each class of units of Global Fund for the year ending 31 December 2004 will therefore be:

	Direct expense (%)	Underlying fund costs (%)	<i>FER</i>
Class A	2.00%	1.50%	3.50%
Class B	3.00%	1.50%	4.50%
Class C	4.00%	1.50%	5.50%

APPENDIX E: STANDARDIZED TERMS USED IN THE ANNUAL BENEFIT STATEMENT

Standardized Terms	Meaning
Account gain/(loss)	Dollar value of overall investment return of a member's account in a scheme during the financial period. The figure represents the change in value of the account balance during the financial period after netting off fund transactions like contributions, transfers and withdrawals during the year.
Amount withdrawn	Dollar value of proceeds from the redemption of units of constituent funds, after deduction of fees and charges, withdrawn by scheme member during the financial period.
Bid price	Transaction price for redeeming units in a constituent fund after fees and charges are deducted from the net asset value per unit of the fund.
Bid spread	Amount charged by the trustee/sponsor upon redemption of units of a constituent fund by a scheme member. Bid spread for a transfer of benefits, withdrawal of benefits in a lump sum, or the first four withdrawals of benefits by instalments in a year can only include necessary transaction costs incurred or reasonably likely to be incurred by the trustee in selling or purchasing investments in order to give effect to the transfer or withdrawal and are payable to a party other than the trustee.
Closing balance	Dollar value of the MPF accounts of a scheme member as at the end of the financial period.
Contributions from current employment	Contributions paid to a scheme under the current term of employment.
Contributions from former employment	Contributions paid to a scheme from former employment excluding contributions in personal account.
Miscellaneous adjustments	Adjustments made to the figures after the financial year-end date of the scheme in the annual benefit statements. They include for example, bonus units, interest credited etc.
Offer price	Transaction price for acquiring units in a constituent fund inclusive of fees and charges marked up on the net asset value per unit of the fund.
Offer spread	Amount charged by the trustee/sponsor upon acquisition of units of a constituent fund by a scheme member. Offer spread for a transfer of benefits can only include necessary transaction costs incurred or reasonably likely to be incurred by the trustee in selling or purchasing investments in order to give effect to the transfer and are payable to a party other than the trustee.
Opening balance	Dollar value of the MPF accounts of a scheme member as at the beginning of the financial period.

Standardized Terms	Meaning
Switch-in to Fund	Amount moved out of a constituent fund that is invested in another constituent fund in the same scheme.
Switch-out of Fund	Amount received from the redemption of units of constituent funds that is moved from one constituent fund to other constituent fund in the same scheme during the financial period.
Total contributions	Total contributions paid to a scheme during the financial period before deduction of fees and charges.
Total contributions (after fees)	Total contributions paid to a scheme during the financial period and invested into constituent funds, after deduction of fees and charges.
Total Fees Charged to Your Account	<p>This refers to member account level fees and expenses that are incurred directly by the member at the member account level, usually relating to transactional activities in the member account such as contributions, transfer, withdrawal, and the purchasing and selling of units in constituent funds. Such expenses include fees deducted on each contribution, transfer to and from the member account, withdrawal from the member account and each purchase and sale of MPF funds in the member account.</p> <p>It does not include fees paid out of the constituent funds to trustees, investment managers, and other service providers for services provided to the funds or costs incurred investing into other funds.</p>
Transfer-in to Scheme	Amount moved to a scheme during the financial period before deduction of fees and charges.
Transfer-in to Scheme (after fees)	Amount moved to a scheme during the financial period after deduction of fees and charges invested into constituent funds.
Transfer-out of Scheme	Amount moved out of a scheme during the financial period before deduction of fees and charges.
Transfer-out of Scheme (after fees)	Amount moved out of a scheme to another registered scheme during the financial period, after deduction of fees and charges.
Unit deduction	Method of charging fees to the constituent funds or scheme members by reducing the number of units held in the funds or by the scheme members.
Vested balances	Dollar value of MPF account balances accrued to a scheme member according to the governing rules of the schemes.

Note to approved trustees

Approved trustees should ensure that any difference in terminology used between the standardized terms and existing disclosure is adequately explained. Trustees might, for example, make cross-references in the above table to the relevant terms in the existing disclosure explaining any differences in meaning. Terms not relevant to a scheme may be deleted as appropriate.

Part 1F - Total Fees Charged to Your Account (Note 5): **HK\$0.00**

Part 1G - Periods with Contributions and/ or Surcharges Outstanding: Nil

IMPORTANT NOTICE:

IF YOU HAVE ANY QUERY ON THIS DOCUMENT, PLEASE SEEK FURTHER INFORMATION FROM OUR WEBSITE AT trustco.com.hk OR BY CALLING OUR HOTLINE AT XXXX-XXXX.

Latest fund fact sheets of each constituent fund as at 31 December 2020 are attached with this statement. The fund fact sheets as at 30 June 2021 will be available by 31 August 2021 and can be obtained from our website or by calling our hotline after that date.

Explanatory Footnotes**Note 1**

This is the dollar amount of portfolio return for your account in this scheme, representing the change of the net asset values between the opening and closing balances of your account in this scheme after account movements such as contributions made, transfers and amount withdrawn or redeemed. A positive figure indicates that you have recorded gains during the period and figure quoted in brackets means losses. The figure represents gain/loss in that one financial period only.

Note 2

“TVC account” is an account in this scheme opened under section 11A of the Mandatory Provident Fund Schemes Ordinance and into which your Tax Deductible Voluntary Contributions (TVC) are paid and in which accrued benefits (benefits) derived from those TVC and the TVC transferred to the account from another TVC account are held.

Note 3

Details about each contribution and each transaction of constituent funds in your account are provided in a Contribution Statement and a Fund Transaction Statement attached with this statement.

Note 4

This is the date on which the transferee trustee received the transfer form for the transfer you made under section 148A of the Mandatory Provident Fund Schemes (General) Regulation of the benefits held in your current employment employee mandatory contribution sub-account. Such transfer can be made once*** per calendar year. In considering whether you can make another transfer request in the current calendar year, please note that this statement does not cover any requests made after [date of end of financial period].

Note 5

These are the fees charged to your account, i.e. member account level fees and charges, for transactions such as contributions, transfers, withdrawals and redemption. The figure is the summation of transactional fees in Part 1D of this statement and Part 3B of the Fund Transaction Statement. Fees and charges that are payable by the constituent fund that you invest in (fees such as the investment management fees, trustee and administration fees) are not included in this figure. You can get information about fees and charges paid by constituent funds in the Fund Fact Sheet for the Scheme. The Fund Expense Ratio shows these amounts as a percentage of fund size.

Instructions to approved trustees

* The order and position of Part 1A should be applied to all annual benefit statements. The rest of the sample is for reference and illustrative purposes only. Columns in Part 1C should be adjusted or deleted as necessary, if, for example, no contributions from former employment are held or personal account holdings and TVC account holdings, if any, are set out in a separate annual benefit statement. For self-employed persons, the employer’s contributions column can be deleted and holdings adjusted accordingly.

** Other relevant account balances, such as guaranteed/qualifying account balances should be included as appropriate in a separate entry.

*** To be adjusted as appropriate.

Part 3 – Fund Transaction Statement

Part 3A - Account Balances by Constituent Fund (in HK\$)

	Total
<u>Opening balances as at 1/1/2020</u>	
Constituent Fund - A	\$14,279.15
Constituent Fund - B	\$3,420.42
Constituent Fund - Guaranteed	\$17,476.44
	\$35,176.01
<u>Closing balances as at 31/12/2020</u>	
Constituent Fund - A	\$36,313.21
Constituent Fund - B	\$19,107.98
Constituent Fund - Guaranteed	\$28,590.22
	\$ 84,011.41

Part 3B – Transaction Fees Deducted (in HK\$)

Offer Spread (Note 6)	\$0.00
Bid Spread (Note 7)	\$0.00
	\$0.00

Note 6

Offer spread is the amount charged by the trustee/sponsor upon acquisition of units of a constituent fund by a scheme member. For a transfer of benefits, the offer spread for a transfer of benefits can only include necessary transaction costs incurred or reasonably likely to be incurred by the trustee in selling or purchasing investments in order to give effect to the transfer and are payable to a party other than the trustee. Offer price is the transaction price for acquiring units in a constituent fund inclusive of fees and charges marked up on the net asset value per unit of the fund.

Note 7

Bid spread is the amount charged by the trustee/sponsor upon redemption of units of a constituent fund by a scheme member. For a transfer of benefits, withdrawal of benefits in a lump sum or the first four withdrawals of benefits by instalments in a year, the bid spread can only include necessary transaction costs incurred or reasonably likely to be incurred by the trustee in selling or purchasing investments in order to give effect to the transfer or withdrawal and are payable to a party other than the trustee. Bid price is the transaction price for redeeming units in a constituent fund after fees and charges are deducted from the net asset value per unit of the fund.

SAMPLE

Part 3C - Details of Unit Transactions (in HK\$)

Constituent Fund - A						
Transaction date	Transaction nature	Amount	Unit prices	Total Unit Holdings	Fees paid	Fee type
1-1-2020	Opening balance	\$14,279.15	\$8.8200	1,618.9512		
31-1-2020	Contribution invested (acquisition)	\$1,000.00	\$8.8000	113.6364	\$0.00	O
15-2-2020	Switched out of Fund (redemption)	(\$3,520.00)	\$8.8000	(400.0000)	\$0.00	B
29-2-2020	Contribution invested (acquisition)	\$1,040.00	\$8.8000	118.1818	\$0.00	O
15-3-2020	Transferred into Scheme - TVC (acquisition)	\$1,960.00	\$8.8000	222.7273	\$0.00	O
31-3-2020	Contribution invested (acquisition)	\$960.00	\$9.1000	105.4945	\$0.00	O
15-4-2020	Transferred into Scheme (acquisition)	\$6,186.59	\$9.2000	672.4554	\$0.00	O
30-4-2020	Contribution invested (acquisition)	\$1,000.00	\$9.3000	107.5269	\$0.00	O
31-5-2020	Contribution invested (acquisition)	\$1,080.00	\$9.4000	114.8936	\$0.00	O
30-6-2020	Contribution invested (acquisition)	\$920.00	\$9.5000	96.8421	\$0.00	O
31-7-2020	Contribution invested (acquisition)	\$1,000.00	\$9.5000	105.2632	\$0.00	O
31-8-2020	Contribution invested (acquisition)	\$1,120.00	\$9.5000	117.8947	\$0.00	O
30-9-2020	Contribution invested (acquisition)	\$880.00	\$9.6000	91.6667	\$0.00	O
31-10-2020	Contribution invested (acquisition)	\$1,000.00	\$9.6000	104.1667	\$0.00	O
18-11-2020	Transferred out of Scheme (redemption)	(\$321.02)	\$9.4529	(33.9596)	\$0.00	B
30-11-2020	Contribution invested (acquisition)	\$1,000.00	\$9.7000	103.0928	\$0.00	O
1-12-2020	Withdrawal from Scheme (redemption)	(\$2,500.00)	\$9.0122	(277.4011)	\$0.00	B
7-12-2020	TVC invested (acquisition)	\$6,000.00	\$9.2329	649.8303	\$0.00	O
30-12-2020	Contribution invested (acquisition)	\$1,000.00	\$10.0500	99.5025	\$0.00	O

Part 1F - Total Fees Charged to Your Account (Note 5): HK\$0.00

Part 1G - Periods with Contributions and/ or Surcharges Outstanding: Nil

IMPORTANT NOTICE:

IF YOU HAVE ANY QUERY ON THIS DOCUMENT, PLEASE SEE FURTHER INFORMATION FROM OUR WEBSITE AT trustco.com.hk OR BY CALLING OUR HOTLINE AT XXXX-XXXX.

A Contribution Statement (showing each contribution you have made) and a Fund Transaction Statement (showing each transaction of constituent funds in your account) are also available. These Statements also show details of any fees or charges incurred. These Statements can be obtained through our website or by calling our hotline.

Latest Fund Fact Sheets for each constituent fund as at 31 December 2020 are attached with this Annual Benefit Statement. The fund fact sheets as at 30 June 2021 will be available by 31 August 2021 and can be obtained from our website or by calling our hotline after that date.

Explanatory Footnotes**Note 1**

This is the dollar amount of portfolio return for your account in this scheme, representing the change of the net asset values between the opening and closing balances of your account in this scheme after account movements such as contributions made, transfers and amount withdrawn or redeemed. A positive figure indicates that you have recorded gains during the period and figure quoted in brackets means losses. The figure represents gain/loss in that one financial period only.

Note 2

“TVC account” is an account in this scheme opened under section 11A of the Mandatory Provident Fund Schemes Ordinance and into which your Tax Deductible Voluntary Contributions (TVC) are paid and in which accrued benefits (benefits) derived from those TVC and the TVC transferred to the account from another TVC account are held.

Note 3

Details about each contribution and each transaction of constituent funds in your account are also available. See the Important Notice above for details about how to get this information.

Note 4

This is the date on which the transferee trustee received the transfer form for the transfer you made under section 148A of the Mandatory Provident Fund Schemes (General) Regulation of the benefits held in your current employment employee mandatory contribution sub-account. Such transfer can be made once*** per calendar year. In considering whether you can make another transfer request in the current calendar year, please note that this statement does not cover any requests made after [date of end of financial period].

Note 5

These are the fees charged to your account, i.e. member account level fees and charges, for transactions such as contributions, transfers, withdrawals and redemption. Detailed information about the fees deducted for each fund transaction of your account during the financial period is also available. See the Important Notice above for details about how to get this information.

Fees and charges that are payable by the constituent fund that you invest in (fees such as the investment management fees, trustee and administration fees) are not included in this figure. You can get information about fees and charges paid by constituent funds in the Fund Fact Sheet for the Scheme. The Fund Expense Ratio shown in the Fund Fact Sheet sets out fees and charges paid by the constituent fund as a percentage of fund size.

Instructions to approved trustees

* The order and position of Part 1A should be applied to all annual benefit statements. The rest of the sample is for reference and illustrative purposes only. Columns in Part 1C should be adjusted or deleted as necessary, if, for example, no contributions from former employment are held or personal account holdings and TVC account holdings, if any, are set out in a separate annual benefit statement. For self-employed persons, the employer’s contributions column can be deleted and holdings adjusted accordingly.

** Other relevant account balances, such as guaranteed/ qualifying account balances should be included as appropriate in a separate entry.

*** To be adjusted as appropriate.

**APPENDIX H: SAMPLE ILLUSTRATIONS FOR PRESENTATION OF
INFORMATION IN THE MPF SCHEME BROCHURE**

(i) Sample cover page as set out in G2.1(b) of this Code

<p style="text-align: right;">[Logo of Trustee or Sponsor (optional)]</p> <p style="text-align: center;">MPF Scheme Brochure For “ABC” MPF Scheme</p> <p style="text-align: right;">[Name of Trustee and/or Sponsor]</p> <p style="text-align: right;">Version date: April 2019 Enquiry contact: (+852) 1234 5678 or xyztrustee@mail.com [Trustee] website: xyztrustee.com.hk</p>

(ii) **Sample standardized table for constituent funds as set out in G2.1(f) of this Code**

No.	Name of Constituent Fund	Investment Manager ¹¹	Fund Structure	Fund Descriptor	Investment Focus
1	ABC Global Equity Fund	SBC	Investing in 2 or more APIFs	Equity Fund - Global	Up to 90% in equities with balance in cash

3	ABC Hong Kong Bond Fund	RCMA	Direct investment	Bond Fund - Hong Kong	Up to 90% in bonds with balance in cash
4	ABC MPF Conservative Fund	RCMA	Investing in a single APIF	Money Market Fund - Hong Kong	Deposits and debt securities

(iii) **Sample section for risks as set out in G3.4(a) of this Code**

[Risks Section]

Each Constituent Fund is subject to market fluctuations and to the risks inherent in all investments. The price of Units of any Constituent Fund and the income from them may go down as well as up. All major risks associated with investing in the Constituent Funds are discussed below.

1. Risk factor (e.g. Interest rate risk)
Detailed description of the risk factor
2. Risk factor (e.g. Currency exchange risk)
Detailed description of the risk factor
3. Risk factor (e.g. Market risk)
Detailed description of the risk factor
. . .
9. Risk factor (e.g. Tracking error risk)
Detailed description of the risk factor

¹¹ Put “N/A” if no investment manager appointed at scheme or constituent fund level with an explanatory note specifying so beneath the table.

- (iv) **Sample presentation for risk factors specific to the constituent fund as set out in G3.4(b) of this Code**

[Section relating to Constituent Fund]

Constituent Fund A

Statement of investment policy

- (a) Objective
- (b) Balance of investments
- (c) Security lending and repurchase agreements
- (d) Futures & options
- (e) Risks

The performance of Constituent Fund A is subject to a number of risks, including the following: Interest rate risk, currency exchange risk, market risk, and tracking error risk.

Please refer to the Risks section for a detailed description of each of the risks listed above.

APPENDIX I: KEY SCHEME INFORMATION DOCUMENT TEMPLATE

- To provide a statement: “This Key Scheme Information Document (KSID) provides you with key information about [name of registered scheme] which forms part of the offering document. You should not make investment decisions based solely on this KSID. For details of [name of the registered scheme], please refer to the MPF Scheme Brochure and the trust deed of [name of the registered scheme] [web link and/or QR Code to the MPF Scheme Brochure and the trust deed of the registered scheme].”

[Example]

Why is MPF important to you?

- To briefly explain the MPF System and whom it covers.
- To briefly explain how to apply for membership and provide the web link and/or QR code to the application form and other requirements and information required for the application.

(Example)

[Download Icon]

(Example)

[MPF Calculator Icon]

To briefly explain the purposes of the Authority's Retirement Planning Calculator or the calculator of the trustee/sponsor that serves the same purposes.

- To provide the web link and/or QR code to the Authority's Retirement Planning Calculator or the calculator of the trustee/sponsor that serves the same purposes.

- To briefly explain the key MPF obligations of an employer.
- To provide information on how an employer can obtain more information in relation to their MPF obligations.

(Example)

[Download Icon]

To briefly explain how to become a participating employer and provide the web link and/or QR code to the application form.

[Example]

Your MPF contributions

- To briefly explain the different types of contributions a person (e.g. employee (full time or part time), employer, self-employed person) can make, the meaning of relevant income and how contributions become vested.

(Example)

Table 1		
Monthly Relevant Income	Mandatory Contribution Amount	
	Employer's Contributions	Employee's Contributions

(Example)

Table 2		
Relevant Income		Self-employed Person's Contributions
Annual	Monthly Average	

(Example)

Table 3			
How to Open an Account	Voluntary Contributions	Tax Deductible Voluntary Contributions	Special Voluntary Contributions

- To provide information on how a person can obtain more information on contributions.
- To provide the web link and/or QR code to the MPF Scheme Brochure of the registered scheme.

[Example]

How do we invest your money?

- To briefly explain that member's money will be invested under the Default Investment Strategy (DIS) automatically if no investment instruction is given.
- To provide information on how a person can obtain more information on DIS.

Table 1

To provide a table showing the following information of the constituent funds of the registered scheme:

- (i) name of constituent fund
- (ii) name of investment manager
- (iii) fund descriptor
- (iv) investment focus
- (v) investment objective
- (vi) management fees (as a percentage of net asset value per annum)

- To add a note: "The management fees shown in the table above include management fees chargeable by the fund and its underlying fund(s) only. There may be other fees and charges chargeable to the fund and its underlying fund(s) or to you. For details, please refer to the MPF Scheme Brochure of [name of the registered scheme] - Fees and Charges Section".
- To provide the web links and/or QR codes to the MPF Scheme Brochure.
- To provide the web links and/or QR codes to the MPF Fund Platform to help a person to make comparisons across different MPF funds and schemes.

[Example]

What are the risks of your MPF investment?

- To provide a general statement about the risks of investing in the constituent funds of the registered scheme: “Investment involves risks”.
- To provide information on how a person can obtain more information on the risk factors and risk classes of the constituent funds.
- To provide the web links and/or QR codes to the MPF Scheme Brochure and the fund fact sheets of the registered scheme.

[Example]

How to transfer your MPF?

- To provide general information on the transfer of MPF.

(Example)

Table		
Parts of MPF in a contribution account (i.e. Types of contributions that the MPF are derived from)	Transfer rule	Type of account receiving the MPF
Contributions from current employment		
Employer mandatory contributions		
Employee mandatory contributions		
Employer voluntary contributions		
Employee voluntary contributions		
Contributions from former employment		
Mandatory contributions transferred to the contribution account under current employment		
Voluntary contributions transferred to the contribution account under current employment		

[Example]

How to manage your MPF when changing jobs?

- To provide information on the actions a person could take with respect to his/her MPF when the person changes jobs.

(Example)

- To provide the web link and/or QR code to the forms for transfer of MPF.

- To provide information on how a person can obtain more information on transfer of MPF.

[Example]

When should you adjust your MPF fund choices?

- To provide general information on when and how to adjust MPF fund choices.
- To set out any restrictions on the frequency of submission of investment instructions and the amount of transfer (if any).

[Example]

When can you withdraw your MPF?

- To briefly introduce all statutory withdrawal conditions and the options of withdrawing in one lump-sum, by instalments or not withdrawing MPF at the age of 65.

(Example)

- To provide the web link and/or QR code to the forms for withdrawal of MPF.

- To provide information on how a person can obtain more information on withdrawal of MPF.

[Example]

Additional information useful to you

- To include brief information on taxation, documents from trustee, other information and personal data statement.
- To provide the web links and/or QR codes to the MPF Scheme Brochure, trust deed, on-going cost illustrations and fund fact sheets of the registered scheme.

[Example]

How to make enquiries and complaints?

- To provide member hotline, address of customer service centre, number for interactive voice response system, fax number, postal address and approved trustee's website (as applicable).

(Example)

Table	
Member Hotline	
Customer Service Centre	
Interactive Voice Response System	
Fax number	
Postal address	
Trustee's website
