

**Extra Big Apple** Martin Chung, aged 6  
*Martin imagines how happy he feels with a ripe red fruit in hand  
and resting in a chair with extra sturdy support.*

### **Mission Statement**

To ensure the provision of retirement protection for Hong Kong's workforce through an effective and efficient system of prudential regulation and supervision of privately managed provident fund schemes.

Every picture tells a MPF story:

*Eight children aged 5 to 11 years were invited to paint pictures about MPF. Their bright and imaginative drawings vividly portray the benefits and rewards of what MPF contributions aim to provide – the delight and comfort of multiple protection and extra assurance when we age.*
